(Note) "LTV" is defined as total interest-bearing debt divided by total assets. The same applies hereafter.

To Our Unitholders

We would like to begin by thanking our unitholders for their continued support of NIPPON REIT ("NRT"). We closed the ninth fiscal period (ended December 31, 2016) on a successful note.

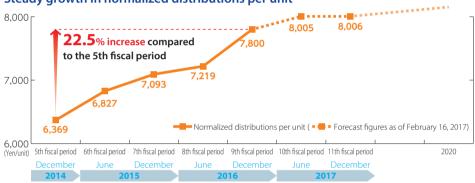

This is in part attributable to the ongoing support from our stakeholders, including our unitholders. We offer you our heartfelt thanks.

I would like to report on our operations and financial performance for the ninth fiscal period.

During the fiscal period under review, we focused in particular on the internal growth of the portfolio, as a result, we recorded the highest occupancy rate of 98.8% ever. Moreover, we succeeded in increasing rents for 31 tenants (equivalent to 30.9% of floor space) out of the 98 tenants that were subject to rent renewals during this fiscal period. The resulting improvement in our profitability significantly exceeded targets, leading to record levels of profit.

As a result, distributions per unit reached \(\frac{\pmathbf{\frac{\pmath}\frac{\pmathbf{\frac{\pmathbf{\frac{\pmathbf{\frac{\pmathbf{\frac{\pmathr\frac{\pmathbf{\frac{\pmathbf{\frac{\pmathbf{\frac{\pmathbf{\frac{\pmathr\frac{\pmathbf{\frac{\pmathr}\frac{\pmathbf{\frac{\pmathr}\frac{\pmathbf{\frac{\pmathr}\frac{\pmathr}\frac{\pmathr}\frac{\pmathr}\frac{\pmathr}\frac{\pmathr}\frac{\pmathr}\frac{\pmathrx{\frac{\pmathr{\frac{\pmathr}\frac{\pmathr}\frac{\p

Steady growth in normalized distributions per unit

In addition, through the use of engineering management initiatives, the NRT continues to work on improving the portfolio's earnings capability by improving tenant satisfaction, reducing costs and creating new sources of profit. The record-high occupancy rate and our achievements in increasing rents during the fiscal period under review, as described above, are evidence that tenant satisfaction has been enhanced as a result of our engineering management approach, furthermore, the improved earnings capability for properties owned has also become noticeable. Going forward, we will continue to apply these initiatives to deliver and maintain lasting improvements in asset value.

In terms of external growth, we have rights of first negotiation on a pipeline of 10 properties with a value of \(\frac{x}{22.5}\) billion. Without veering from the investment policies to which we have held fast since the listing, we will use a disciplined external growth strategy to drive the maximization of unitholder value.

We will continue to work hand in hand with asset management company Sojitz REIT Advisors K.K. and sponsor companies to improve unitholder value.

We ask for the continued support and guidance of our stakeholders.

Actual/forecast distributions per unit transition

(Note 1) "Initial forecasts" describes the publicly announced forecast figures at each point in time, as follows. 5th fiscal period: August 14, 2014, 6th fiscal period: February 19, 2015, 7th fiscal period: August 20, 2015, 8th fiscal period: February 18, 2016, 9th/10th fiscal period: August 16, 2016

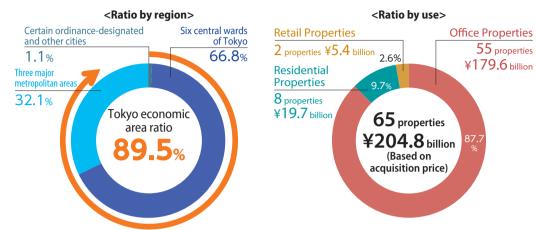

••> Growth in NAV per unit (Note2)

(Note 2) NAV per unit is calculated as (net assets + total appraisal value - total book value) / issued investment units as of the end of each fiscal period. The same applies hereafter.

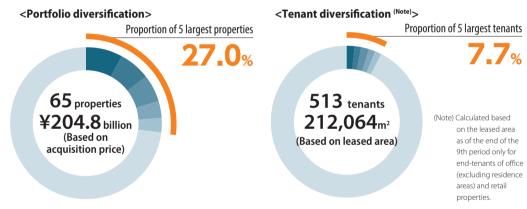

·· Portfolio focused on the Tokyo economic area

We construct our portfolio with a focus on offices in the center of Tokyo, where rents are on a rising trend and where we can expect growth in rental revenue going forward.

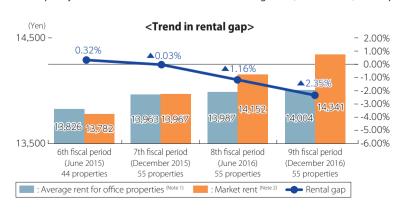

•• The highest leveled risk diversification among listed J-REITs

By maintaining the highest leveled property and tenant diversification among listed J-REITs, we have achieved a portfolio that has high risk tolerance.

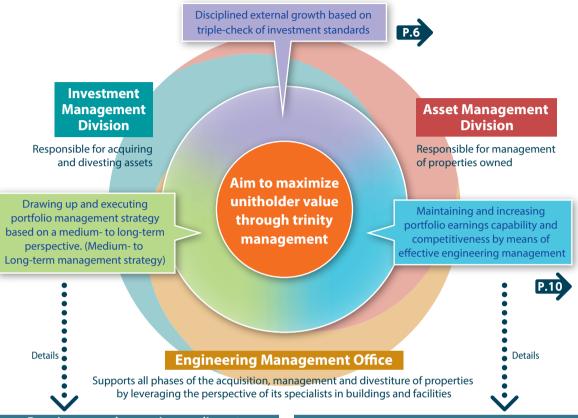

· High Growth Potential

We consider growth potential (the growth potential of each property and rent gap) as one of our acquisition target. As a result of making investments with an eye on future internal growth, the rent gap at the end of the fiscal period under review (the discrepancy between the market rent and our average rent) was -2.35%, which provides support for future rent increases.

- (Note 1) Average rent is the contract-based rent, which is a weighted average of each office property based on the occupied standard floor area. Each weighted average excludes tenants that have submitted a notice of cancellation and occupy the retail section between the second floor and the basement floor of buildings.
- (Note 2) Market rent is an average of the maximum and minimum rents of respective properties, as described in market reports prepared by Sanko Estate and CBRE Inc. The average is a weighted average of each office property based on the occupied standard floor area.

••> NRT aims to maximize unitholder value through its characteristic management system "trinity management."

Drawing up and executing medium- to long-term management strategy

The Investment Management Division, Asset Management Division and Engineering Management Office work together to analyze each property from the perspectives of **profitability**, **liquidity** and **property characteristics**. The property is classified into one of Tiers 1 to 3, a medium- to long-term portfolio management plan is formed, and a timely investment is then targeted.

Profitability

 Verifies potential for medium- to long-term maintenance of and improvements to earnings capability

Liquidity

 Verifies liquidity in the real estate transaction market from a medium- to long-term perspective (Area, location, form of ownership, age of building, scale, demand trends etc.)

Property Characteristics

- Analysis of track record (downtime, ease of leasing, etc.)
- Verifies operational risk points and area potential

Tier 1: continue to hold for medium to long term in principle
Tier 2: continue to review investment approach, including

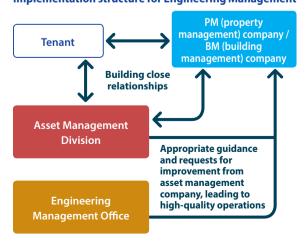

the possibility of rebuilding / redevelopment

Tier 3: draw up replacement scenario predicated on improving the 3 axes of evaluation

Effective engineering management

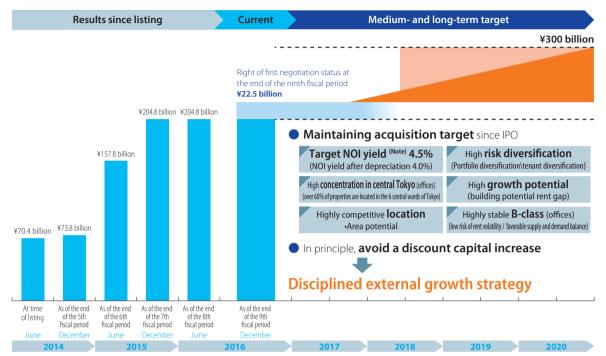

The plan set out by the Asset Management Division, which is intimately familiar with the characteristics of the property, is scrutinized by the Engineering Management Office and its specialists in buildings and facilities. The efficiency of capital investment is improved dramatically.

Implementation structure for Engineering Management

·· Vision for Future External Growth

In terms of our pipeline, we have rights of first negotiation on 10 properties with a value of ¥22.5 billion. Without veering from the investment policies to which we have held fast since the listing, we will use a disciplined external growth strategy to drive the maximization of unitholder value.

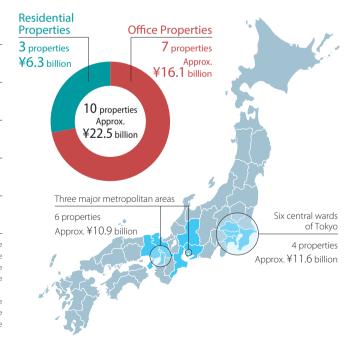

(Note) NOI yield refers to the NOI yield based on NIPPON REIT's cash flow projection at the time of acquisition against the acquisition price. The same applies hereafter

•• Summary of the New Bridge **Fund**

| Number of real-estate backed properties | 10 properties |
|---|-----------------|
| Aggregate appraisal value | ¥22,740 million |
| Appraisal NOI yield (Note 1) | 4.9% |
| Rental Gap ^(Note 2) (Office only) | -4.5% |
| Equity investment amount | ¥820 million |

(Note 1) The "appraisal NOI yield" for bridge fund properties is calculated as the NOI written on the appraisal value form during due diligence at the time each property was acquired (the appraisal NOI) divided by the first negotiation price (for Godo Kaisha Nicolas Capital 6 & 8) or by the appraisal value (for Godo Kaisha Nicolas Capital 9).

(Note 2) The "rental gap" for bridge fund properties is calculated using the average market rent, which is based on the market report obtained during due diligence at the time each property was acquired, as follows: Average rent for all offices / Average market rent - 1.

•• Occupancy Rate Trends

As a result of our flexible and proactive leasing activities, as well as the enhanced tenant satisfaction and building competitiveness stemming from our engineering management, the occupancy rate reached the highest ever.

Tenant Occupancy / Vacancy Conditions, Average Free Rent Period, Vacancy Rate

Leasing activity is proceeding satisfactorily, and at the end of the fiscal period under review, the vacancy rate (Note 1) was 2.4%. The average free rent period (Note 2) has contracted to around three months.

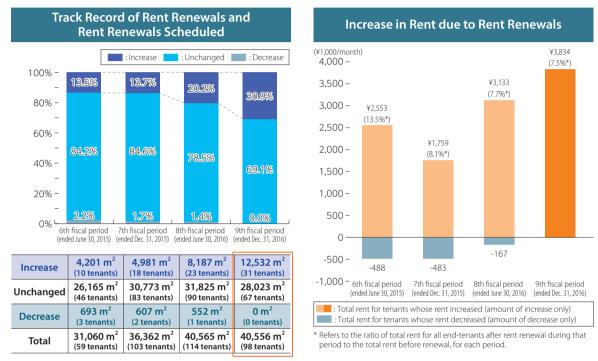

(Note 1) The "vacancy rate" is the floor area vacated during the fiscal period divided by the total rentable floor space on the last day of the fiscal period under review.

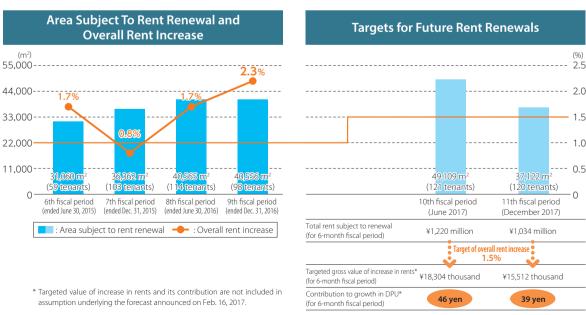

(Note 2) The "average free rent period" is calculated as the gross loss caused by free rent periods and the like for end-tenants who have concluded a new contract within the fiscal period, divided by the gross value of contracted rent when there are no free rent periods and the like.

·· Current Situation and Targets for Rent Increases

In the fiscal period under review, out of floor space of 40,556 square meters (representing 98 tenants), we managed to increase rents for an area of 12,532 square meters (representing 31 tenants), or 30.9% of the total. In addition, the overall vent increase^(Note) of 2.3% was significantly greater than the target of 1%, and reached the highest level ever. Moreover, for the 10th and 11th fiscal periods, we have upwardly revised our target from the previous 1% to 1.5%, and will seek to further raise the floor for distributions per unit going forward.

(Note) Overall rent increase refers to the ratio of total rent for all end-tenants after rent renewal, to the total rent before renewal, for office properties. The same applies hereafter.

8

-10%

- 5%

·· Case studies of effective engineering management

We are working to improve tenant satisfaction as well as to maintain and enhance profitability and competitiveness of the portfolio. Through the Engineering Management, we aim to further increase asset value by pursuing economic efficiencies such as reducing costs of works.

A-5 FORECAST Ichigaya

Effective use of dead space by taking advantage of the law amendment

By taking advantage of the relaxing of restrictions on the floor-area ratio resulting from the revision of the Building Standards Act, we were able to open storage rooms, for the exclusive use of residents, in the dead space located in the upper residential floors (a space on top of the elevator shaft). As the residential units of this property are primarily occupied by single-person households, many of which actively pursue hobbies, we anticipate significant demand for storage space. The storage rooms will contribute to an improvement in tenant satisfaction and enhance the competitiveness of the property in future leasing activities. We expect annual revenues to be boosted by approximately 1 million yen due to the establishment of the storage rooms.

Revisions to legislation lead to repurposing of dead space

We deliberately restricted the number of storage rooms in order to optimize the convenience of residents, and out of consideration for the grade of building. Moreover, we succeeded in reducing construction costs significantly by devising more efficient approaches to extending and partitioning the space.

B-1 Tower Court Kitashinagawa

Raising the specification of upper-floor units through renovation work

Residential units on the upper floors of this property have larger floor areas than those on lower and middle floors, and vacant periods tended to be longer. Through market research activities, it was found that tenants in the units with relatively high rent on the upper floors tended to have an interest in sophisticated design. In order to improve the competitiveness of the property, we carried out a renovation program, including turning the living room walls into "design walls" and upgrading the front entrance using glass blockwork, with the aim of enhancing the overall design appeal. The units that underwent this renovation received applications at the same time as the work was completed and are leased. The above measures were successful, and at the end of December 2016 the occupancy rate was maintaining a level of 98.0%.

Sunlit upper floors

Precisely because it is on the upper floors, a greater sense of light is needed. At the entrance, which can easily suffer from a closed-in feeling, glass blocks are used to allow the sunlight to penetrate, while the design wall constructed of white bricks lightens the living room where the family gathers.

exceptionally high environmental & social awareness

ront entrance that draws light through the use of

A-15 JS Progres Building

Enhancing building image by renewing the entrance

In the tenant questionnaire, some respondents had commented that the entrance was dark. In order to refresh the image of the entrance hall, we implemented a renovation that included revising the lighting plan, redecorating the walls and ceiling, and replacing the carpet in the waiting area.

Increase in parking lots (requests from tenants), improved profitability

A potential tenant had a need for more than 10 spaces in the parking lot, and by levelling some unused ground and rearranging part of the parking lot layout, we were able to add an additional 10 parking spaces. As a result of fulfilling this precondition, a leasing contract was successfully concluded with the potential tenant. In addition to the rise in the occupancy rate, the increase in the number of parking spaces led to incremental annual income of ¥2.4 million. During the worst period, five floors (a total of 4,714 square meters) of the JS Progres Building were vacant, with the vacancy rate slumping to 60.7% at one point, but the measures taken above bore fruit, and at the end of December 2016, the occupancy rate had recovered to 100%.

A-30 FORECAST Shinagawa

Based on interviews with the real estate broker, we discovered that the property's weak points were insufficient restroom stalls for both male and female restrooms, as well as the lack of a smoking space.

Refurbishing restrooms

We carried out a renovation of the male and female restrooms, including constructing additional stalls, aiming to improve competitiveness by raising tenant satisfaction through enhancing the work environment.

Establishment of new smoking area

A new smoking area was established on the rooftop. During the course of establishing this area, we took advice from Japan Tobacco Inc., in order to create a pleasant space and routes of movement for both smokers and nonsmokers. During the worst period, two floors (a total of 720 square meters) of FORECAST Shinagawa were vacant, with the vacancy rate falling to 66.7% at one point, but the measures taken above bore fruit, and at the end of December 2016, the occupancy rate had recovered to 100%.

A-45 Toranomon Sakura Building

Enhancing competitiveness through renewal of elevator hall and by partitioning floors

By using leasing managers to conduct market research to uncover the needs of tenants in this area, we found that there were many foreignaffiliated companies wanting to move into high-spec buildings with an area of about 100 square meters. We moved to respond to these

needs and to improve the competitiveness of the property. After acquiring the property, at its lowest point the occupancy rate fell to 48.5%, equivalent to three empty floors, but having precisely understood the needs of the market, by implementing the above measures the occupancy rate had improved to 89.5% by the end of December 2016. At the end of February 2017, we expect the occupancy rate to have reached 100%.

Partitioning floors to avoid the sense of being closed in

Using glass in the partition walls creates offices with a sense of airiness. By using wood-grain blinds and lighting that mimics the color of incandescent bulbs to create accents on walls and ceilings, corridors that can easily become monotonous are given a sense of changing space.

9th fiscal

a Verite

Akasaka

•• Track record in raising NOI through Engineering Management (Note)

As a result of the effective implementation of Engineering Management, we expect to attribute to approximately ¥150 million per year increase in NOI over the four periods starting from the seventh fiscal period.

(Note) Actual results and forecast values for improvements to NOI are calculated by the asset management corporation based on the contracts, quotes and proposals, and do not constitute any kind of warranty with regard to the operations results of the Investment Corporation.

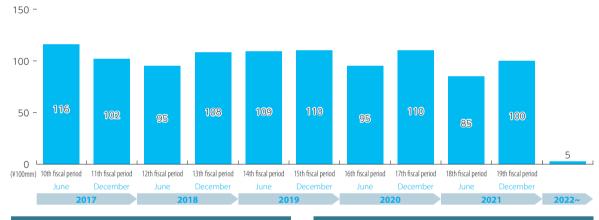

In order to build a stable financial base over the medium- to long-term, the basic policy of our financial strategy is one of distributed fund procurement that strikes a balance between borrowing costs and financial stability. In the ninth fiscal period, we worked to further reduce borrowing costs and fix interest rates using interest-rate swaps executed in the eighth fiscal period. As a result, the fixed-interest rate ratio reached 100% as of the end of the ninth fiscal period, while the average borrowing cost, including loan commissions, stabilized at low levels.

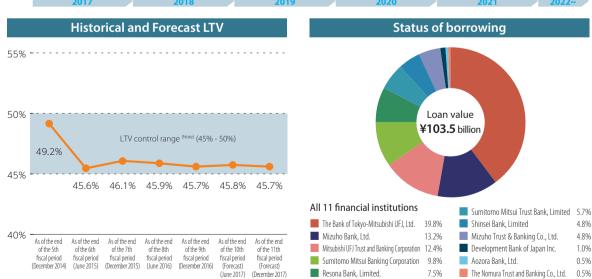

Going forward, we will continue to promote the stability of our financial base in a way that takes into account the balance with interest costs.

(Note) These ratings do not apply to the units of the Investment Corporation. Moreover, with regard to said units, no credit ratings have been provided or submitted for inspection by credit rating agencies, nor are any credit ratings scheduled to be provided or submitted for inspection as a result of requests from the Investment Corporation.

Distribution of debt maturity

(Note) The "LTV control range" refers to the LTV level that the Investment Corporation is scheduled to maintain going forward and that is within the range of the LTV level under current policy (45%-55%), as described in item 18 of this document.

(Note 1)
(Note 3)
(No

| Ordinary income to total assets ratio | Ordinary income ÷ average total assets × 100 |
|---------------------------------------|---|
| | Average total assets = (Total assets at beginning of period + total assets at end of period) ÷ 2 |
| Return on equity | Net income ÷ average net assets × 100 |
| | Average net assets = (Net assets at beginning of period + net assets at end of period) ÷ 2 |
| Payout ratio | Distribution per investment unit (excluding cash distributions in excess of earnings per unit) + net income per investment unit × 100 Note that NIPPON REIT issued new investment units in the sixth period and the seventh period. Hence, the following calculation is used: Total distribution (excluding cash distributions in excess of earnings per unit) + net income × 100 |
| Leasing NOI (net operating income) | Income from property leasing for the fiscal period under review (rental revenues – rental expenses) + depreciation + loss on retirement of non-current assets |
| FFO (funds from operations) per unit | (Net income + depreciation + loss on retirement of non-current assets + deferred asset amortization – gain / loss on real estate sales) ÷ total investment units issued and outstanding |

(Note 4) This denotes the total number of tenants (excluding those for warehouses, billboards, and parking lots) in leasing contracts for each building acquired at the end of the period. It should be noted that in the event a pass-through master lease contract is entered into for said assets, the total number of end-tenants is used in the calculation (excluding those for warehouses, billboards, and parking lots). (Note 5) Monetary figures are truncated, while percentages are rounded.

(2) Overview of the Fiscal Period under Review

A Brief History of NIPPON REIT

NIPPON REIT was established on September 8, 2010 by Polaris Investment Advisers K.K. (now Sojitz REIT Advisors K.K. (hereafter referred to as the "Asset Management Company")) as the founder under the Act on Investment Trusts and Investment Corporations (the "Investment Trusts Act"). Registration with the Kanto Local Finance Bureau was completed on October 26, 2010 (registration number 72, filed with the Director of the Kanto Local Finance Bureau).

NIPPON REIT issued new investment units through a public offering (144,200 units) on April 23, 2014 as the payment date and listed on the J-REIT section of the Tokyo Stock Exchange (securities code: 3296) on April 24.

Furthermore, NIPPON REIT issued investment units through public offerings in February and July 2015 and third-party allotments in March and July 2015, and the total number of investment units issued and outstanding as of the end of the fiscal period under review (December 31, 2016) is 391,760 units.

B Investment Environment and Management Performance

I Investment Environment

The Japanese economy during the fiscal period under review (fiscal period ended December 2016) saw a increase of 0.3% (an annual increase by 1.3%) in the real GDP growth rate (second preliminary figures) for the third quarter compared to the same period of the previous year, and the gradual recovery trend is ongoing while delayed improvement in part can be seen. Private consumption, production and exports show movements toward picking up, while business investment appears to be pausing. Corporate profits remain at a high level, although improvement appears to be on hold, and firms' judgment on current business conditions is improving slowly. The employment situation is improving, and consumer prices are flat. With regard to future prospects, a gradual recovery is expected, supported by the effects of the policies, while the employment and income environments are improving. However, attention should be paid to the uncertainty in overseas economies and the effects of fluctuations in the financial and capital markets.

In the office properties leasing market, the vacancy rate in Tokyo's five central wards (Chiyoda, Chuo, Minato, Shinjuku and Shibuya wards) as of the end of December 2016 as announced by Miki Shoji Co., Ltd., was 3.61%, down 0.42% from the same month last year. Moreover, the average rent in the same area as of the end of December 2016 was 18,540 yen per tsubo, up 4.79% from the same month last year. Such small-scale upward trends are ongoing.

In terms of the residential properties leasing market, the situation remains generally stable for both the occupancy rate and rent level, and the trend of populations concentrating in Japan's three major metropolitan areas is expected to continue.

The retail properties leasing market saw a 1.7% year-on-year increase in retail sales according to figures announced by the Ministry of Economy, Trade and Industry in November 2016, showing gradual recovery trend mainly in the motor vehicles-retailing sector and retail trade (woven fabrics, apparel, accessories and notions) sector. Sales at large retail stores decreased by 0.3% year on year. As for short-term prospects, private consumption is expected to move toward recovery, supported by the improvement in the employment and income environments.

Recently, since properties managed by short-term trading oriented private funds have continued to be acquired by long-term holding oriented J-REITs, superior investment-grade properties for sale are decreasing. Therefore, transaction yield is declining for not only S grade and A grade building in central Tokyo and excellent properties at major regional cities, but for aged buildings in major regional cities provided that location of such properties are excellent, and decline in transaction yields is spreading over a wide range of properties.

Because of the judgment that office rent is approaching the upper limit due to the increase in office building supply and macroeconomic uncertainty, more investors are beginning to think that the level of transaction yields is reaching its limit.

On the other hand, since there is no definite cause of concern that may reverse the market, and the satisfactory finance environment has continued, the fact that buyers concentrate on a small amount of superior investment-grade properties for sale is expected to keep transaction yields at the current low level.

II Management Performance

a. External Growth

No property was acquired during the period. As a result, the portfolio as of the end of the fiscal period under review consisted of 55 office properties (with a total acquisition price of 179,666 million yen), eight residential properties (with a total acquisition price of 19,773 million yen) and two retail properties (with a total acquisition price of 5,413 million yen), totaling 65 properties (with a total acquisition price of 204,852 million yen; not including equity interests in a silent partnership) with a total leased area of 252,220.72 m^2 and a 98.8% average occupancy rate, and 3 equity interests in a silent partnership (investment amount 820 million yen, 10 real estate-backed properties).

b. Internal Growth

NIPPON REIT emphasizes management that maintains and increases the portfolio's asset value and actively reaches out to new and existing tenants with business activities, while strengthening relations with existing tenants, implementing measures that boost the competitiveness of properties in light of tenant needs and the features of each property. Through such efforts, the portfolio occupancy rate was maintained at a high level of 98.8%, as of the end of the fiscal period under review.

C Procurement of Funds

I Borrowings and Repayments

In order to use the funds for repayment of a loan due on August 22, 2016 (loan amount 10,000 million yen), borrowings of a total 10,000 million yen were implemented on the same day the loan was due.

As a result, the balance of borrowings as of December 31, 2016 was 103,570 million yen and the ratio of interest-bearing debt to total assets (LTV) was 45.7%.

II Credit Rating

NIPPON REIT's credit rating as of December 31, 2016 is as follows

| Credit Rating Agency | Rating type | Rating outlook |
|-------------------------------------|-----------------------------|----------------|
| Japan Credit Rating Agency, Ltd. | Long-term issuer rating: A– | Positive |

D Overview of Business Performance and Distributions

As a result of the operations described above, business performance in the fiscal period under review generated operating revenues of 6,836 million yen, operating income of 3,527 million yen, ordinary income of 3,055 million yen, and net income of 3,054 million yen.

Concerning distributions, in order to be eligible for application of the special provisions for taxation on investment corporations (Article 67-15 of the Special Taxation Measure Act of Japan) and ensure a scope that does not exceed unappropriated retained earnings and that can minimize unitholder burdens of income tax, etc., NIPPON REIT decided to distribute 3,055,728,000 yen, which is the amount equivalent to the maximum integral multiple of the total number of investment units issued and outstanding, or 391,760 units. As such, cash distributions per unit were 7,800 yen.

(3) Changes in Number of Total of Investment Units Issued and Outstanding

Changes in number of investment units issued and outstanding and total unitholders' equity for recent 5 years to the end of current period are as follows:

| 5. | Data Transfirm | | estment units standing (Unit) | Total unithol (Yen in millio | Note | |
|-------------------|--|------------------------|----------------------------------|---------------------------------|---------|----------|
| Date | Type of issue | Increase (decrease) | Total | Increase (decrease) | Total | Note |
| January 17, 2014 | Unit split | 200 | 400 | - | 100 | (Note 2) |
| April 23, 2014 | Public offering | 144,200 | 144,600 | 35,066 | 35,166 | (Note 3) |
| May 23, 2014 | Issuance of new investment units through third-party allotment | 7,210 | 151,810 | 1,753 | 36,919 | (Note 4) |
| February 10, 2015 | Public offering | 145,000 | 296,810 | 46,137 | 83,057 | (Note 5) |
| March 10, 2015 | Issuance of new investment units through third-party allotment | 7,250 | 304,060 | 2,306 | 85,364 | (Note 6) |
| July 1, 2015 | Public offering | 84,000 | 388,060 | 22,911 | 108,276 | (Note 7) |
| July 28, 2015 | Issuance of new investment units through third-party allotment | 3,700 | 391,760 | 1,009 | 109,285 | (Note 8) |

- (Note 1) Total unitholders' equity is truncated to the nearest million yen.
- (Note 2) NIPPON REIT implemented a two-for-one split of investment units with an effective date of January 17, 2014.
- (Note 3) In order to obtain funds to acquire new properties, NIPPON REIT issued new investment units through a public offering at the offer price of 252,000 yen (issue price of 243,180 yen) per unit.
- (Note 4) In connection with the public offering, NIPPON REIT issued new investment units through a third-party allotment at the issue price of 243.180 yen per unit.
- (Note 5) In order to obtain funds to acquire new properties, NIPPON REIT issued new investment units through a public offering at the offer price of 330,037 yen (issue price of 318,189 yen) per unit
- (Note 6) In connection with the public offering, NIPPON REIT issued new investment units through a third-party allotment at the issue price of 318,189 yen per unit.
- (Note 7) In order to obtain funds to acquire new properties, NIPPON REIT issued new investment units through a public offering at the offer price of 282,918 yen (issue price of 272,761 yen) per unit.
- (Note 8) In connection with the public offering, NIPPON REIT issued new investment units through a third-party allotment at the issue price of 272,761 yen per unit.

(Changes in market price of investment securities)

The highest and lowest (closing) prices in the J-REIT section of the Tokyo Stock Exchange, upon which NIPPON REIT's investment securities are listed, are as follows for the period indicated:

| | 5th fiscal period | 6th fiscal period | 7th fiscal period | 8th fiscal period | 9th fiscal period |
|---------------|--|--|--|---------------------------------------|--|
| Period | From July 1, 2014 to December 31, 2014 | From January 1, 2015 to June 30, 2015 | From July 1, 2015 to December 31, 2015 | From January 1, 2016 to June 30, 2016 | From July 1, 2016 to December 31, 2016 |
| Highest (yen) | 376,500 | 400,000 | 300,000 | 295,500 | 285,000 |
| Lowest (yen) | 254,900 | 288,900 | 233,800 | 246,000 | 250,500 |

(4) Distributions

Concerning distributions for the period under review, in order to be eligible for application of the special provisions for taxation on investment corporations (Article 67-15 of the Act on Special Measures Concerning Taxation) and ensure a scope that does not exceed unappropriated retained earnings and that can minimize unitholder burdens of income tax, etc., NIPPON REIT decided to distribute ¥3,055,728,000, which is the amount equivalent to the maximum integral multiple of the total number of investment units issued and outstanding, or 391,760 units. As such, cash distributions per unit were ¥7,800.

| | | 5th fiscal period | 6th fiscal period | 7th fiscal period | 8th fiscal period | 9th fiscal period |

| Distributions from reduced capital distributions per unit | (Yen) | _ | _ | _ | _ | _ |

(Note) Amounts are truncated to the relevant digit.

(5) Future Operating Policies and Issues to Be Addressed

A Management Policy

With the basic policy of "Thoroughly pursuing the best interests of NIPPON REIT's unitholders," NIPPON REIT plans to engage in the following measures to maximize unitholder value through flexible and timely investment, seek the best interests of unitholders by utilizing the features of a diversified REIT, and focus on the growth potential and stability of revenues.

B External Growth Strategy

In order to diversify risk by combining assets with different revenue features while considering the future trends of the Japanese economy and real estate market as well as securing more appropriate investment opportunities, NIPPON REIT will set office properties as its main target of investment and construct a diversified portfolio by also investing in residential properties and retail properties.

Furthermore, with the asset management company's own property acquisition network as the base and also utilizing the real estate investment networks of sponsors such as Sojitz Corporation, the main sponsor and sub-sponsor, companies such as Cushman & Wakefield Asset Management K.K. (hereafter referred to as "Cushman"), and Agility Asset Advisers Inc., NIPPON REIT will increase its asset size through property acquisitions centered on negotiation transactions with third parties and promote external growth.

Concerning property acquisitions from third parties, NIPPON REIT will consider temporary ownership and recovery functions provided through the warehousing function of Sojitz Corporation, the main sponsor, and temporary ownership functions provided by bridge funds in which sponsor companies are involved in the formations, in order to avoid the loss of opportunities for property acquisitions and to maximize growth opportunities.

C Internal Growth Strategy

NIPPON REIT will manage assets to maintain and increase the competitiveness of the portfolio and of individual properties according to their features based on the unique networks and expertise that the officers and employees of the asset management company have nurtured at sponsor companies. Moreover, by entrusting property and building management operations mainly to Sojitz General Property Management Corporation, a subsidiary of main sponsor Sojitz Corporation, we will promote the maintenance of the occupancy rate and an increase in profitability through the utilization of Sojitz General Property Management Corporation's knowledge based on experience and cost reduction effects via economies of scale. Furthermore, with appropriate processes as a given, Sojitz General Property Management Corporation will be used as the main consignee for renovations and planned repairs in addition to the daily management operations. Along with the company's consistent support ranging from building diagnostics to repair designs, selection of construction companies and construction management based on its knowledge nurtured through large-scale repair consulting and such, NIPPON REIT will aim to maintain and increase the value of assets under management through effective and conscientious repairs that consider the priority of construction work and optimization of costs, following sufficient consideration of cost-effectiveness.

Regarding leasing plans for offices, new asking rent and renewed rent for existing tenants will be set with reference to various data, etc., provided by Cushman, a sub-sponsor, and flexible leasing activities will be implemented by stipulating the operational policy for new potential tenants.

D Financial Strategy

NIPPON REIT's basic policy for its financial strategy is to conduct fund procurement in a diversified and well-balanced manner in order to construct a stable financial foundation over the medium to long term.

Regarding interest-bearing debt, the targeted ceiling of LTV is set at 60%. NIPPON REIT's LTV as of the end of the fiscal period under review is 45.7% and the current policy is to maintain the LTV level between 45% and 55%.

With regard to lenders, NIPPON REIT will maintain a strong bank formation centered on the syndicate group as of the end of the fiscal period under review.

(6) Significant Subsequent Events

Not applicable.

2 Overview of the Investment Corporation

(1) Status of Investment Units

| (1) Status of missanism of mo | | | | | | | | |
|---|-------------------|-------------------|-------------------|-------------------|-------------------|-------------------|--|--|
| Period | | 5th fiscal period | 6th fiscal period | 7th fiscal period | 8th fiscal period | 9th fiscal period | | |
| | | December 31, 2014 | June 30, 2015 | December 31, 2015 | June 30, 2016 | December 31, 2016 | | |
| Total number of investment units authorized | (Unit) | 4,000,000 | 4,000,000 | 4,000,000 | 4,000,000 | 4,000,000 | | |

| Total unitholders' equity (Note) | (Yen in millions) | 36,919 | 85,364 | 109,285 | 109,285 | 109,285 | | |
| Number of unitholders | | 9,816 | 21,096 | 24,862 | 25,570 | 24,814 | | |

(Note) Total unitholders' equity is truncated to the nearest million yen.

(2) Matters Concerning Investment Units

The top 10 unitholders in terms of the percentage of investment units held as of December 31, 2016, are as follows:

| as follows. | | |
|--|--|--|
| Name | Number of investment units held (Unit) | Percentage of units held to the total number of units issued and outstanding (%) (Note) |
| Japan Trustee Services Bank, Ltd. (Trust Account) | 70,635 | 18.03 |
| Trust & Custody Service Bank, Ltd. (Securities Investment Trust Account) | 28,449 | 7.26 |
| The Master Trust Bank of Japan, Ltd. (Trust Account) | 20,452 | 5.22 |
| The Nomura Trust and Banking Co., Ltd. (Investment Trust Account) | 15,503 | 3.96 |
| Sojitz Corporation | 15,500 | 3.96 |
| STATE STREET BANK AND TRUST COMPANY 505001 | 4,362 | 1.11 |
| BARCLAYS CAPITAL SECURITIES LIMITED | 3,700 | 0.94 |
| Shikoku Railway Company | 3,342 | 0.85 |
| NOMURA BANK (LUXEMBOURG) S.A. | 2,520 | 0.64 |
| Japan Trustee Services Bank, Ltd. (Trust Account 9) | 2,507 | 0.64 |
| Total | 166,970 | 42.62 |

(Note) Percentage of units held to the total number of units issued and outstanding is rounded to the second decimal place and may not add up to the total.

(3) Officers

The following table provides information about our executive and supervising officers, and independent auditor during the fiscal period under review.

| Position | Name | Major concurrent position | Total compensation per title during the 8th fiscal period (Yen in thousands) (Note 1) |
|---------------------|------------------|---|---|
| Executive Officer | Hisao Ishikawa | Adviser for Asset Management Department, Sojitz Corporation | 1,800 |
| 0 | Yasuhiro Shimada | Partner, Atsumi & Sakai | 1,200 |
| Supervising Officer | Hisashi Yahagi | Representative council, Toranomon Partners | 1,200 |
| Independent Auditor | KPMG AZSA LLC | _ | 13,000 |

(Note 1) Total compensation for each position in the applicable business period has been truncated to the nearest thousand yen.
(Note 2) Termination of the independent auditor is carried out in accordance with the Investment Trust Act. The Board of Officers of NIPPON REIT determines the refusal of reappointment of an independent auditor factoring in various circumstances including the quality of the audits performed and compensation for said audits.

(4) Asset Manager, Asset Custodian, and General Administrative Agent

NIPPON REIT's asset manager, asset custodian, and general administrative agent as of December 31, 2016 are as follows:

| Business | Name |
|---|--|
| Asset Manager | Sojitz REIT Advisors K.K. |
| Asset Custodian | Mitsubishi UFJ Trust and Banking Corporation |
| General Administrative Agent (Transfer agent) | Mitsubishi UFJ Trust and Banking Corporation |
| General Administrative Agent (Administrative work for organizational operation) | Mitsubishi UFJ Trust and Banking Corporation |
| General Administrative Agent (Accounting administration) | Mitsubishi UFJ Trust and Banking Corporation |

3 Portfolio of the Investment Corporation

(1) Composition of Assets

| (1) Composition of Assets | | | | | | | |

| Total | 84,596 | 94,537.15 | 94,197.49 | 99.6 | 40.7 | |

"Book value" is truncated to the nearest million yen. (Note 1)

- "Total leasable area" is the total area of the relevant building that NIPPON REIT considers leasable based on relevant lease (Note 2) agreements or floor plans. The same shall apply hereafter.
- "Total leased area" is the aggregate leased area described in the relevant lease agreements as of December 31, 2016. For properties subject to pass-through master leases, total leased area is the aggregate of the leased areas indicated in the relevant sublease agreements with end-tenants as of December 31, 2016.
- "Occupancy rate" is calculated by dividing total leased area by total leasable area as of December 31, 2016, and rounded to the first
- "Rate to total revenues from property leasing" is rounded to the first decimal place and may not add up to the total.

| Godo Kaisha Nicolas Capital 8 equity interest in silent partnership | Equity interest in a silent partnership | - | I | 521 | | 521 | _ | (Note 5) | |
| Total | | ı | 1 | 848 | | 848 | | | |

(Note 1) Amounts are truncated to the relevant digit.

(Note 2) Book value is used as the fair value equivalent.

(Note 3) The asset under management is trust beneficiary interests in real estate of Homat Horizon Building, Splendid Namba and Sannomiya

The asset under management is trust beneficiary interests in real estate of Yusen Higashi-Nihombashi Ekimae Building, Residence (Note 4)

Edogawabashi and ZEPHYROS Minami-horie.

The asset under management is trust beneficiary interests in real estate of SC Sakaisujihonmachi Building, Alte Building Higobashi, DIA Building Meieki and Hiroo ON Building. (Note 5)

(5) Contract Amount and Market Value for Specific Transactions

| Category | Туре | Contract amount (Yen in thousands) (Note 1) | | Market value (Yen in |
|-------------------------|-------------------------------------|---|------------------|----------------------|
| | | | Due after 1 year | thousands) (Note 2) |
| Off-market transactions | Interest rate swap Receive floating | 85,500,000 | 63,700,000 | (70,204) |
| | / Pay fix | , , | ,, | (Note 3) |
| Total | | 85,500,000 | 63,700,000 | (70,204) |

(Note 1) The contract amount is based on the notional principal. Also, figures are truncated to the nearest thousand yen.
(Note 2) Market value is based on the price indicated by the financial institution managing the transaction. Also, figures are truncated to the nearest thousand ven.

With regard to the Interest rate swap Receive floating / Pay fix transaction for which special treatment is applied in accordance with the "Accounting Standards for Financial Instruments," such market value is not included in the balance sheet.

(6) Other Assets

Beneficiary interests in trust assets comprised mainly of real estate are presented earlier in this report under "(3) Description of Portfolio." Aside from the column for assets as of December 31, 2016, and the assets in "(4) Description of Investment Securities," NIPPON REIT has not included major investment assets in its portfolio.

(7) Holding of Assets by Country and Region

NIPPON REIT does not own assets outside of Japan.

4 Capital Expenditure for Properties Held

(1) Schedule of Capital Expenditures

The following are the main capital expenditures NIPPON REIT plans to implement during the 10th fiscal period accompanying planned renovations and repairs for those properties held as of December 31, 2016.

The following scheduled construction amount includes the portion charged to expenses in accounting.

| Other capital expenditures | 206 | | | | |
| Total | 466 | | | | |

(Note) Capital expenditures are truncated to the nearest million yen.

(3) Cash Reserves for Long-Term Repairs and Maintenance Plans

Based on a long-term repair and maintenance plan compiled for each property, NIPPON REIT sets aside the following cash reserves from cash flows during the fiscal period in order to provide the payment of funds for major repairs and maintenance, etc. over the medium to long term.

(Yen in millions)

| | 5th fiscal period | 6th fiscal period | 7th fiscal period | 8th fiscal period | 9th fiscal period |
|--|--|---------------------------------------|--|---------------------------------------|--|
| Operating period | From July 1, 2014 to December 31, 2014 | From January 1, 2015 to June 30, 2015 | From July 1, 2015 to December 31, 2015 | From January 1, 2016 to June 30, 2016 | From July 1, 2016 to December 31, 2016 |
| Balance of reserves at beginning of period | 45 | 174 | 480 | 553 | 694 |
| Amount of reserves during period | 161 | 400 | 468 | 466 | 458 |
| Amount of reversal of reserves during period | 33 | 93 | 395 | 326 | 466 |
| Reserves carried forward | 174 | 480 | 553 | 694 | 687 |

(Note) Figures in the above table are truncated to the nearest million yen.

5 Expenses and Liabilities

(1) Expenses in Connection with Management of Assets

(Yen in thousands)

| Item | 8th fiscal period From January 1, 2016 to June 30, 2016 | 9th fiscal period From July 1, 2016 to December 30, 2016 |
|------------------------------------|---|--|
| (a) Asset management fees (Note 1) | 511,448 | 527,285 |
| (b) Asset custody fees | 12,887 | 12,995 |
| (c) Administrative service fees | 49,751 | 50,230 |
| (d) Directors' compensation | 2,160 | 4,200 |
| (e) Independent auditors' fees | 13,000 | 13,000 |
| (f) Other operating expenses | 98,266 | 94,725 |
| Total | 687,514 | 702,436 |

⁽Note 1) In addition to the amount shown above for asset management fees, there were management fees (8th period, ¥7,175 thousand) for property acquisition included in the cost of acquisition of respective investment securities.

(Note 2) Figures in the table above are truncated to the nearest thousand yen.

(2) Debt Financing

The status of borrowing per financial institution as of December 31, 2016, is as follows:

| | Classification | ,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,, | Balance at the | Balance at | | | | | |

⁽Note 1) "Balance at the beginning of the period" and "Balance at the end of the period" are truncated to the nearest million yen.

- (3) Investment Corporation Bonds Not applicable.
- (4) Status of Short-Term Investment Corporation Bonds Not applicable.
- (5) Status of Unit Acquisition Rights Not applicable.
- 6 Status of Purchases and Sales during the 9th fiscal Period
- (1) Status of Purchases and Sales of Real Estate, Asset-Backed Securities, Infrastructure Assets and Infrastructure-Related Assets

Not applicable.

(2) Transaction of Other Assets

Other assets, aside from previously mentioned real estate, asset-backed securities, infrastructure assets, and infrastructure-related assets consist mainly of bank deposits and bank deposits included in the trust asset deposits.

(3) Review on Value of Specified Assets

A.Real estate

Not applicable.

B. Others

KPMG AZSA LLC is entrusted with the investigation of prices of transactions that are carried out by NIPPON REIT and deemed necessary based on Article 201 of the Investment Trust Act .

Transactions that have been investigated during the applicable period from July 1, 2016, to December 31, 2016, consisted of 1 interest rate swap transaction, and an investigation report on such transactions was received from KPMG AZSA LLC.

Furthermore, in carrying out the investigation, NIPPON REIT entrusted the investigation of the name of the counterparty, the agreed figures, the transaction period, and other details regarding the relevant interest rate swap transactions.

⁽Note 2) "Average interest rate" is the weighted-average interest rate during the period, rounded to the second decimal place.

⁽Note 3) Used for acquisition of assets, repayment of loans, and related expenses deemed reasonable.

⁽Note 4) Interest rate swap agreement is concluded and the interest rate is substantively fixed. Therefore, the effect of interest rate swap is factored into the interest rate provided.

(4) Related Party Transactions A. Status of Transactions Not applicable.

B. Amount of Fees Paid

| 217 1110 411 (01 1 000 1 414 | | | | | | | | |
|---------------------------------|--------------------------------|---|------------------------------------|------------------------|--|--|--|--|
| | Total amount paid (A) | Breakdown of transactions with (Note 1) | related parties | Rate to total amount | | | | |
| Classification | (Yen in thousands) (Note 3) | Payment recipient | Amount paid (B) (Yen in thousands) | paid (B/A) (Note 4) | | | | |
| Insurance premiums (Note 5) | 9,176 | Sojitz Insurance Agency Corporation | 9,176 | 100.0% | | | | |

| Other property-related expenses | 248,155 | Sojitz General Property Management Corporation | 19,897 | 8.0% | | | | |

(Note 1) In accordance with the Order for Enforcement of the Investment Trusts Act and Articles 26 and 27 of the Investment Trust Association of Japan's rules related to management reports for investment trusts and investment corporations, related parties are defined as the related parties of the asset management company that has entered into an asset management contract with NIPPON REIT.

The table above outlines the transactions in the fiscal period under review that NIPPON REIT concluded with related parties.

(Note 3) "Total amount paid" and "Amount paid" have been truncated to the nearest thousand yen.

(Note 4) "Rate to total amount paid" has been rounded to the first decimal place.

Insurance premiums include those for real estate in trust as well as for director liability insurance.

The following are fees paid to the related parties in the fiscal period under review other than those listed above and commission fees.

Note that the amount is truncated to the nearest thousand yen.

Sojitz General Property Repair work (in addition to repair expenses, this also includes capital

Management Corporation expenditures) ¥229.196 thousand

(5) Status of Transactions with Asset Management Company Pertaining to Business Operated by the Asset Management Company as Subsidiary Business

Not applicable because the asset management company does not engage in any business as a subsidiary business that is a type I financial instruments business, type II financial instruments business, real estate brokerage, or real estate specified joint enterprise.

7 Accounting

- (1) Status of Assets, Liabilities, Principal, and Profit/Loss Please refer to "Balance Sheets," "Statements of Income and Retained Earnings," "Statements of Change in Net Assets," "Notes to Financial Statements," and "Note 15. Distribution Information."
- (2) Changes in Method to Calculate Depreciation Expenses Not applicable.
- (3) Changes in Method to Evaluate Properties and Infrastructure Assets Not applicable.
- (4) Status of Beneficiary Certificates of Investment Trust Established by NIPPON REIT Not applicable.
- (5) Disclosures as a Corporation Holding Real Estate Overseas and relating to Real Estate Held by a Corporation Holding Real Estate Overseas

Not applicable

8 Other

(1) Notice

There are no conclusions and changes, etc. of major contracts approved by the meeting of the Board of Officers of NIPPON REIT during the fiscal period under review.

(2) Other

Unless otherwise stated, monetary amounts are truncated and percentages are rounded off to the nearest specified unit here in this report.

9 Risk

An investment in NIPPON REIT's units involves significant risks. The principal risks with respect to investment in NIPPON REIT are as follows

Property and Business Risks

- · Any adverse conditions in the Japanese economy could adversely affect NIPPON REIT.
- NIPPON REIT may not be able to acquire properties to execute its growth and investment strategy in a
 manner that is accretive to earnings.
- The geographic concentration of NIPPON REIT's portfolio in the six central wards of Tokyo could have a
 material adverse effect on its business.
- The high proportion of office properties in NIPPON REIT's portfolio could have a material adverse effect on its business.
- Competition for tenants may adversely affect NIPPON REIT's ability to retain its current tenants, find new tenants, and achieve favorable rents.
- Increases in prevailing market interest rates may increase NIPPON REIT's interest expense and may
 result in a decline in the market price of its units.
- NIPPON REIT may suffer large losses if any of its properties incur damage from a natural or man-made disaster.
- · NIPPON REIT's reliance on its sponsors could have a material adverse effect on its business.
- NIPPON REIT may incur unexpected expenses, expenditures or other losses for repair or maintenance of its properties.
- NIPPON REIT may be strictly liable for any unforeseen loss, damage, or injury suffered by a third party at its properties and disputes with neighbors may expose it to unexpected liabilities.
- NIPPON REIT may suffer adverse consequences if its rental revenues decline because a substantial part
 of its operating expenses are fixed.
- Illiquidity in the real estate market may limit NIPPON REIT's ability to grow or adjust its portfolio.
- Entering into forward commitment contracts may expose NIPPON REIT to contractual penalties and market risks.
- Defects relating to NIPPON REIT's properties may adversely affect its financial condition and results of operations.
- NIPPON REIT relies on experts for appraisals and engineering, environmental, seismic, and other reports, which are subject to significant uncertainties.
- NIPPON REIT relies on industry and market data that is subject to significant uncertainties.
- The environmental assessments of NIPPON REIT's properties made prior to its acquisition may not have uncovered all environmental liabilities, and Japanese laws subject property owners to strict environmental liability.
- NIPPON REIT may lose rental revenues in the event of lease terminations, decreased lease renewals, default by tenants on their obligation to pay rent, or rent reductions.
- Any of the buildings NIPPON REIT owns may violate earthquake resistance or other building codes.
- Master lease agreements expose NIPPON REIT to the risk of becoming an unsecured creditor of its master lessees in the event of their insolvency and certain other risks.
- · Any restrictions on NIPPON REIT's activities under its financing arrangements could adversely affect us.
- A high LTV ratio may increase NIPPON REIT's exposure to changes in interest rates and have a material adverse effect on the results of its operations.
- NIPPON REIT may suffer impairment losses relating to its properties and may also suffer adverse tax effects upon recognizing impairments.
- A downgrading of NIPPON REIT's credit ratings may negatively affect the price of its units.
- NIPPON REIT's investments in Japanese anonymous associations carry potential risks.
- NIPPON REIT may hold interests in properties through investing in preferred securities of specific-purpose

- companies and such investments are subject to certain risks.
- NIPPON REIT's financial statements are prepared in accordance with Japanese GAAP, which differs in certain material respects from IFRS, U.S. GAAP, and generally accepted accounting principles and financial reporting standards in other jurisdictions.
- · Decreases in tenant security deposits in trust may increase NIPPON REIT's funding costs.

Management and Governance Risks

- NIPPON REIT's success depends on the performances of service providers to which it is required to assign various key functions.
- There are potential conflicts of interest between NIPPON REIT and certain group companies of the sponsors including the Asset Manager.
- · NIPPON REIT's performance depends on the efforts of key personnel of the Asset Manager.
- Unitholders have limited control over NIPPON REIT's investment policies.
- J-REITs and their asset managers are subject to strict supervision by the regulatory authorities.
- There are important differences regarding the rights of unitholders in a J-REIT compared to those of shareholders in a corporation.

Taxation Risks

- NIPPON REIT's failure to satisfy a complex series of requirements pursuant to Japanese tax regulations
 would disqualify NIPPON REIT from certain taxation benefits and significantly reduce its cash
 distributions to its unitholders.
- If the Japanese tax authorities disagree with the interpretations of the Japanese tax laws and regulations NIPPON REIT used for prior periods, NIPPON REIT may be forced to pay additional taxes for those periods.
- NIPPON REIT may not be able to benefit from reductions in certain real estate taxes enjoyed by qualified J-REITs.
- Changes in Japanese tax laws may significantly increase NIPPON REIT's tax burden.
- NIPPON REIT expects to be treated as a "passive foreign investment company" for U.S. federal income tax purposes.
- Unitholders may be subject to U.S. Foreign Account Tax Compliance Act (FATCA) withholding tax after 2018.

Legal and Regulatory Risks

- · NIPPON REIT's ownership rights in some of its properties may be declared invalid or limited.
- NIPPON REIT may lose its rights in a property it owns if the purchase of the property is recharacterized as a secured financing.
- NIPPON REIT's leasehold or subleasehold rights in underlying land may be terminated or may not be asserted against a third party in some cases.
- Properties for which third parties hold leasehold interests in the land and own the buildings on such land may subject NIPPON REIT to various risks.
- Some of NIPPON REIT's properties are in the form of stratified ownership interests (kubun shoyu-ken) and
 its rights relating to such properties may be affected by the intentions of other owners.
- Some of NIPPON REIT's properties are in the form of property co-ownership (kyoyu) and quasi coownership (jun kyoyu) interests and its rights relating to such properties may be affected by the intentions of other owners.
- NIPPON REIT's properties may be subject to preferential purchase rights, rights of first refusal, or other similar rights held by third parties.
- Tax increases or adverse changes in applicable laws may affect NIPPON REIT's potential liabilities
 relating to its properties and operations.

- The cost of complying with regulations applicable to the properties in NIPPON REIT's portfolio could
 adversely affect the results of its operations.
- NIPPON REIT owns all of the properties in its portfolio through trust beneficiary interests and may suffer losses as a trust beneficiary.
- The Alternative Investment Fund Managers Directive (AIFMD) may negatively affect NIPPON REIT's
 ability to market its units in the EEA and increase its compliance costs associated with the marketing of its
 units in the EEA
- NIPPON REIT's units may be deemed to constitute "plan assets" for ERISA purposes, which may lead to
 the rescission of certain transactions, tax or fiduciary liability, and NIPPON REIT being held in violation of
 ERISA requirements.

NIPPON REIT Investment Corporation NOTES TO FINANCIAL STATEMENTS

As of and for the six-month periods ended June 30, 2016 and December 31, 2016

Note 1 - Organization and Basis of Presentation

Organization

NIPPON REIT Investment Corporation (hereinafter referred to as "NIPPON REIT") was established on September 8, 2010 with ¥100 million in capital (200 units) as an investment corporation under the Act on Investment Trusts and Investment Corporations (Act No. 198 of 1951, including subsequent revisions, hereinafter referred to as the "Investment Trust Act") by the founder (the former Polaris Investment Advisors K.K.; now, Sojitz REIT Advisors K.K.).

Commencing on July 1, 2014, the fiscal period has been amended from an annual period to a semi-annual period ending on June 30 and December 31. Prior to this amendment, the annual fiscal period was a 12-month period from July 1 to June 30. NIPPON REIT made this amendment in order to increase the frequency of distributions to its unitholders.

NIPPON REIT is an externally managed real estate fund, established as an investment corporation. Sojitz REIT Advisors K.K., as NIPPON REIT's asset management company, is engaged in acquiring, managing, leasing, and renovating office properties, residential properties and commercial properties. Sojitz Corporation, Cushman & Wakefield Asset Management K.K. and Agility Asset Advisers Inc. currently own 67%, 18% and 15%, respectively, of Sojitz REIT Advisors K.K.

NIPPON REIT implemented a two-for-one split of investment units on January 17, 2014, issued new investment units through a public offering (144,200 units) on April 23, 2014 and then was listed on the J-REIT section of the Tokyo Stock Exchange on April 24, 2014. Furthermore, NIPPON REIT issued new investment units through a third-party allotment (7,210 units) on May 23, 2014, a public offering (145,000 units) on February 10, 2015, a third-party allotment (7,250 units) on March 10, 2015, a public offering (84,000 units) on July 1, 2015 and a third-party allotment (3,700 units) on July 28, 2015. As of December 31, 2016, the total number of investment units outstanding was 391,760 units.

As of December 31, 2016, NIPPON REIT had ownership or trust beneficiary interests in 65 properties with approximately 252,220.72 square meters of rentable space and had leased space to 966 tenants. The occupancy rate for the properties was approximately 98.8%.

Basis of Presentation

The accompanying financial statements have been prepared in accordance with the provisions set forth in the Investment Trust Act, the Financial Instruments and Exchange Act and their related accounting regulations, and in conformity with accounting principles generally accepted in Japan ("Japanese GAAP"), which are different in certain respects as to application and disclosure requirements from International Financial Reporting Standards or accounting principles generally accepted in the United States of America.

The accompanying financial statements have been reformatted and translated into English from the financial statements of NIPPON REIT prepared in accordance with Japanese GAAP and filed with the appropriate Local Finance Bureau of the Ministry of Finance as required by the Financial Instruments and Exchange Act. In preparing the accompanying financial statements, relevant notes have been expanded and certain reclassifications have been made from the Japanese GAAP financial statements. Certain supplementary information included in the statutory Japanese GAAP financial statements, but not required for fair presentation, is not presented in the accompanying financial statements.

As permitted by Japanese GAAP, amounts of less than one thousand yen or one million yen have been omitted. Consequently, the totals shown in the accompanying financial statements do not necessarily agree with sums of the individual amounts.

Note 2 - Summary of Significant Accounting Policies

(a) Cash and Cash Equivalents

Cash and cash equivalents consist of cash, demand deposits, and short-term investments which are highly liquid, readily convertible to cash and with insignificant risk of market value fluctuation, with maturities of three months or less from the date of acquisition.

(b) Allowance for Doubtful Accounts

Allowance for doubtful accounts is provided at the amount considered sufficient to cover probable losses on collection. The amount is determined by estimating an uncollectible amount based on the analysis of certain individual accounts that may not be uncollectable.

(c) Investment Properties

Investment properties are recorded at cost, which includes the allocated purchase price and, related costs and expenses for acquisition of the trust beneficiary interests in real estate. Investment property balances are depreciated using the straight-line method over the estimated useful lives as follows:

| Buildings in trust | 2-63 years |
|--|------------|
| Structures in trust | 2-45 years |
| Machinery and equipment in trust | 10 years |
| Tools, furniture and fixtures in trust | 3-15 years |

Costs related to the renovation, addition and improvement of properties are capitalized. Expenditures for repairs and maintenance which do not add to the value or prolong the useful life of a property are expensed as incurred.

(d) Long-Term Prepaid Expenses

Long-term prepaid expenses are amortized using the straight-line method.

(e) Investment Securities

Available-for-sale securities without market prices are stated at cost determined by the moving average method. Equity interest in a silent partnership is stated at net amount equivalent to the interest in the relevant partnership.

(f) Income Taxes

Deferred tax assets and liabilities are computed based on the difference between the financial statements and income tax bases of assets and liabilities using the statutory tax rate.

(g) Real Estate Taxes

Investment properties are subject to various taxes, such as property taxes and city planning taxes. Owners of the properties are registered by records maintained in each jurisdiction by the local government. The taxes are imposed on the registered record owner as of January 1 of each year, based on an assessment made by the local government.

When a property is purchased within the calendar year, the taxes for the corresponding calendar year are imposed on the seller. NIPPON REIT pays the seller the corresponding amount of taxes for the period from the property acquisition date to December 31 of the calendar year and capitalizes these amounts as acquisition costs of the property, rather than expensing them. In subsequent calendar years, such taxes on investment properties are charged as operating expenses in each fiscal period.

No real estate taxes were capitalized for the six-month periods ended June 30, 2016 and December 31, 2016.

(h) Consumption Taxes

Consumption taxes are excluded from transaction amounts. Generally, consumption taxes paid are offset against the balance of consumption taxes withheld. As such, the excess of payments over amounts withheld is included in the current assets while the excess of amounts withheld over payments is included in the current liabilities. Non-deductible consumption taxes related to the acquisition of properties are treated as the cost of the applicable properties.

(i) Hedge Accounting

NIPPON REIT enters into derivative transactions for the purpose of hedging risks defined in the Articles of Incorporation of NIPPON REIT in accordance with its financial policy. NIPPON REIT uses interest rate swaps as hedging instruments in order to hedge the risk of interest rate fluctuations related to borrowings. The deferral method is applied for hedge transactions. For interest rate swaps which qualify for hedge accounting and meet specific criteria, the special treatment is applied. Under the special treatment, the related differentials paid or received under such swap contracts can be recognized and included in interest expense or income of the hedged assets or liabilities, and the interest rate swaps are not required to be measured at fair value separately. NIPPON REIT evaluates hedge effectiveness by comparing the cumulative changes in cash flows of hedging instruments and the hedged items and assessing the ratio between the changes. However, the assessment of hedge effectiveness for interest rate swaps which meet the special criteria is omitted.

(j) Revenue Recognition

Revenues from property leasing consist of rental revenues including base rents, common area charges and parking space rental revenues, and other revenues related to property leasing such as utilities charge reimbursements and others. Rental revenues are generally recognized when earned and considered realizable over the life of each lease. Utilities charge reimbursements are recognized when earned and their amounts can be reasonably estimated.

(k) Accounting for Trust Beneficiary Interests in Real Estate

For trust beneficiary interests in real estate owned by NIPPON REIT, all accounts of assets and liabilities within the assets in trust as well as all accounts of revenue generated and expenses incurred from the assets in trust are recognized in the relevant accounts of the balance sheets and, statements of income and retained earnings.

The following assets in trust are recognized and presented separately on the balance sheets.

- (i) Cash and deposits in trust
- (ii) Land in trust, buildings in trust, structures in trust, machinery and equipment in trust, tools, furniture and fixtures in trust, construction in progress in trust and leasehold rights in trust
- (iii) Tenant security deposits in trust

Note 3 – Cash and Cash Equivalents

Reconciliation between cash and deposits and cash and deposits in trust in the balance sheets and cash and cash equivalents in the statements of cash flows is as follows:

4 . . .

| | | June 30, 2016 (Yen in the second of the sec | AS OI | | | |
|----------------------------|---|--|---------|----------------|--|--|
| | J | une 30, 2016 | Dece | ember 31, 2016 | | |
| | | (Yen in | thousan | ıds) | | |
| Cash and deposits | ¥ | 3,735,973 | ¥ | 4,269,839 | | |
| Cash and deposits in trust | | 11,906,745 | | 12,204,569 | | |
| Cash and cash equivalents | ¥ | 15,642,719 | ¥ | 16,474,409 | | |
| | | | | | | |

Note 4 - Financial Instruments

(a) Qualitative Information for Financial Instruments

Policy for Financial Instrument Transactions

NIPPON REIT raises funds mainly through borrowings, issuance of investment corporation bonds and investment units for acquisition of investment properties, capital expenditures, renovations or repayment of bank borrowings. In financing through interest-bearing debt, NIPPON REIT raises funds with longer term, fixed-rate and well-diversified maturities to secure stable and liquid financing capacity.

NIPPON REIT enters into derivative transactions solely for the purpose of hedging interest rate fluctuation risks arising from borrowings and does not use derivative transactions for speculative purposes.

Nature and Extent of Risks arising from Financial Instruments

Proceeds from borrowings are used mainly for acquisition of investment properties, capital expenditures, renovations, operations or repayment of outstanding borrowings. These borrowings are exposed to liquidity risks upon refinance. The floating-rate borrowings are exposed to potential risks of rising interest rates.

Bank deposits are used for investing NIPPON REIT's surplus funds. These bank deposits are exposed to credit risks such as bankruptcy of the depository financial institutions.

Risk Management of Financial Instruments

Liquidity risk is managed by diversifying lending financial institutions and planning and executing diversified financing methods including financing through capital markets, such as issuance of investment corporation bonds and issuance of investment units.

Interest rate volatility risk is managed primarily by increasing the proportion of borrowings under long-term fixed rates. Derivative transactions may be entered into in order to hedge interest rate fluctuation risk. As of December 31, 2016, NIPPON REIT uses derivative transactions (interest rate swaps) as hedging instruments in order to avoid the risk of interest rate fluctuations and to fix the amount of interest payments for borrowings with floating rates. NIPPON REIT evaluates hedge effectiveness by comparing the cumulative changes in cash flows of hedging instruments and the hedged items and assessing the ratio between the changes. However, the assessment of hedge effectiveness for interest rate swaps which meet the special criteria is omitted.

Credit risk is managed by diversifying the depository financial institutions.

Supplemental Explanation regarding Fair Value of Financial Instruments

The fair value of financial instruments is based on their quoted market price. When there is no observable market price available, fair value is based on a price that may be reasonably estimated. Since certain assumptions and factors are reflected in estimating the fair value, different assumptions and factors could result in a different value.

(b) Fair Value of Financial Instruments

The book values, fair values and differences between them were as follows:

| | As of June 30, 2016 | | | | | As of December 31, 2016 | | | | | 6 | |
|------------------------------------|----------------------------|-------------|---|-------------|---|-------------------------|------|-------------|---|-------------|---|------------|
| | | | | | | (Yen in th | ousa | inds) | | | | |
| Assets | | Book value | | Fair value | | Difference |] | Book value | | Fair value | | Difference |
| Cash and deposits | ¥ | 3,735,973 | ¥ | 3,735,973 | ¥ | _ | ¥ | 4,269,839 | ¥ | 4,269,839 | ¥ | _ |
| Cash and deposits in trust | | 11,906,745 | | 11,906,745 | | _ | | 12,204,569 | | 12,204,569 | | _ |
| Total | ¥ | 15,642,719 | ¥ | 15,642,719 | ¥ | _ | ¥ | 16,474,409 | ¥ | 16,474,409 | ¥ | _ |
| Liabilities | | | | | | | | | | | | |
| Long-term debt due within one year | ¥ | 21,600,000 | ¥ | 21,600,000 | ¥ | - | ¥ | 21,800,000 | ¥ | 21,800,000 | ¥ | - |
| Long-term debt | | 81,970,000 | | 82,239,729 | | 269,729 | | 81,770,000 | | 81,671,833 | | (98,166) |
| Total | ¥ | 103,570,000 | ¥ | 103,839,729 | ¥ | 269,729 | ¥ | 103,570,000 | ¥ | 103,471,833 | ¥ | (98,166) |
| Derivatives | ¥ | 10,834 | ¥ | 10,834 | ¥ | _ | ¥ | 34,726 | ¥ | 34,726 | ¥ | - |

The financial instruments whose fair values are deemed extremely difficult to determine are excluded from the above table.

Methods used to estimate the fair value of financial instruments and derivative transactions are as follows:

Assets and Liabilities:

(1) Cash and deposits, cash and deposits in trust and consumption taxes refundable

Due to the short maturities, the book value of these assets is deemed a reasonable approximation of the fair value; therefore, the book value is used as the fair value equivalent.

(2) Long-term debt due within one year and long-term debt

For long-term debt with floating interest rates that reflects market interest rates within a short period of time, the book value is deemed a reasonable approximation of the fair value and there are no significant changes in NIPPON REIT's credit standing after borrowing; therefore, the book value is used as the fair value equivalent. However, for long-term debt with floating interest rates hedged by interest rate swaps applying the special treatment, the fair value is calculated based on the total amount of principle and interest which are processed as a single unit with the interest rate swaps discounted at the current interest rate applicable to similar borrowings. For long-term debt with fixed interest rates, the fair value is calculated based on the total amount of principle and interest discounted at the current interest rate applicable to similar borrowings.

Derivative Transactions:

There were no derivative transactions to which hedge accounting was not applied as of June 30, 2016 and December 31, 2016.

Derivative transactions to which hedge accounting was applied were as follows:

| Hedge | Type of | | Contra | cted amo | ount | T7 - 2 | ir value |
|---|---|----------------|--------------|-----------------------|--------------|-----------------|----------|
| accounting method | derivative transaction | Hedged item | Total | Due after one year | | Due after (Note | |
| | | | | (Yen in | n thousands) | | |
| Deferral method | Interest rate swaps Receive floating/Pay fixed | Long-term debt | ¥ 32,600,000 |) ¥ | 21,000,000 | ¥ | 10,834 |
| Special treatment for interest rate swaps | Interest rate swaps Receive floating/Pay fixed | Long-term debt | 42,900,000 | 0 | 42,900,000 | (1 | Note 1) |
| Γotal | | | ¥ 75,500,000 |) ¥ | 63,900,000 | ¥ | 10,834 |
| Γotal | | | ¥ 75,500,000 |) ¥ | 63,900,000 | 1 | F |

| | | | As of December 31, 2016 | | | | | |
|---|---|----------------|-------------------------|------------|-----------------------|---------------|----------------|---------|
| Hedge | Hedge Type of | | Contract | Eas | ir value | | | |
| accounting method | derivative transaction | Hedged item | | Total | Due after one year | | Due after (Not | |
| | | | | | (Yen | in thousands) | | |
| Deferral method | Interest rate swaps Receive floating/Pay fixed | Long-term debt | ¥ | 32,600,000 | ¥ | 10,800,000 | ¥ | 34,726 |
| Special treatment for interest rate swaps | Interest rate swaps Receive floating/Pay fixed | Long-term debt | | 52,900,000 | | 52,900,000 | (1 | Note 1) |
| Total | | | ¥ | 85,500,000 | ¥ | 63,700,000 | ¥ | 34,726 |
| | | | | | | · | | |

Notes:

- 1. As derivatives applying the special treatment of interest rate swaps are processed as a single unit with long-term debt that is designated as the hedged item, the fair value is included in the fair value of long-term debt in "(b) Fair Value of Financial Instruments" above.
- 2. The fair value is provided by financial institutions.

Financial instruments whose fair values are deemed extremely difficult to determine are as follows:

The fair value of tenant security deposits in trust is not disclosed because these deposits do not have a readily available market price, and it is difficult to estimate a period as to when these deposits will be returned. Although the tenant agreements stipulate a tenancy period, the historical analysis of actual tenancy periods do not indicate any pattern of tenancy period due to their unique nature as early termination or renewal/re-contract of tenancy agreements is possible, which makes it impracticable to reasonably estimate the future cash flows. The book values of tenant security deposits in trust are presented in the following table.

| | | As of | | | |
|-----------------------------------|---|--------------|---------|----------------|--|
| | J | une 30, 2016 | Dec | ember 31, 2016 | |
| | | (Yen in | thousar | nds) | |
| Book value: | | | | | |
| Tenant security deposits in trust | ¥ | 7,481,160 | ¥ | 7,880,370 | |

The fair value of investment securities is not disclosed because these securities do not have available market price, and it is difficult to estimate fair values. The book values of investment securities are presented in the following table.

| | | | As of | |
|--|--------------------|-------------|-------|---------------|
| | Ju | me 30, 2016 | Dece | mber 31, 2016 |
| | (Yen in thousands) | | | |

| Buildings in trust | 47,963,163 | (3,356,559) | 44,606,603 | 48,349,873 | (4,100,611) | 44,249,261 | | |
| Structures in trust | 148,697 | (24,249) | 124,447 | 155,644 | (28,886) | 126,758 | | |
| Machinery and equipment in trust | 20,277 | (2,023) | 18,254 | 74,342 | (3,527) | 70,815 | | |
| Tools, furniture and fixtures in trust | 33,979 | (4,351) | 29,628 | 50,572 | (7,590) | 42,982 | | |
| Construction in progress in trust | - | _ | _ | 3,146 | _ | 3,146 | | |
| Leasehold rights in trust | 15,806,402 | - | 15,806,402 | 15,806,402 | _ | 15,806,402 | | |
| Total | ¥211,599,216 | ¥(3,387,183) | ¥ 208,212,032 | ¥212,066,679 | ¥(4,140,616) | ¥ 207,926,062 | | |

Note 6 – Fair Value of Investment Properties

The book value, net changes in the book value and the fair value of the investment properties including office properties, residential properties and commercial properties were as follows:

| | For the six-month periods ended | | | | |
|--------------------------------|---------------------------------|-------------|---|----------------|--|
| | June 30, 2016 December | | | ember 31, 2016 | |
| | (Yen in thousands) | | | | |
| Book value: | | | | | |
| Balance at beginning of period | ¥ | 208,681,494 | ¥ | 208,212,032 | |
| Change during period | | (469,461) | | (289,116) | |
| Balance at end of period | ¥ | 208,212,032 | ¥ | 207,922,916 | |
| Fair value | ¥ | 217,243,000 | ¥ | 220,087,000 | |

Notes

- 1. The fair value is determined based on appraisal values provided by external real estate appraisers.
- 2. The book value includes leasehold rights in trust, but excludes construction in progress in trust.
- 3. For the six-month period ended June 30, 2016, the increase was primarily due to capital expenditures and the offsetting decrease was due to depreciation.
- 4. For the six-month period ended December 31, 2016, the increase was primarily due to capital expenditures and the offsetting decrease was due to depreciation.

Note 7 – Rental Revenues and Expenses

Rental revenues and expenses were as follows:

| | For the six-month periods ended | | | |
|--|---------------------------------|------------------------|----------|-----------|
| | Ju | June 30, 2016 December | | |
| | | (Yen in t | thousand | ds) |
| Revenues from property leasing: | | | | |

| Repair expenses | | 117,424 | | 86,342 |
| Taxes and dues | | 499,659 | | 499,639 |
| Depreciation | | 743,048 | | 753,613 |
| Loss on retirement of investment properties | | 938 | | 1,849 |
| Trust fees | | 23,550 | | 22,750 |
| Other | | 246,903 | | 248,155 |
| Total property-related expenses | | 2,631,928 | | 2,606,741 |
| Income from property leasing | ¥ | 3,969,034 | ¥ | 4,197,387 |

Note 8 – Subsidy Income

Subsidy income of ¥53,077 thousand for the six-month period ended June 30, 2016 represents income received from Energy Use Rationalization Business Support Program 2015.

Note 9 – Loss on Reduction of Investment Properties

Loss on reduction of investment properties represents the amount directly deducted from acquisition costs for the investment properties due to government subsidies received. The details were as follows:

| | | For the six-month periods ended | | | | | |
|-------------------|---|---------------------------------|--|--|--|--|--|
| | | June 30, 2016 December 31, 2016 | | | | | |
| | | (Yen in thousands) | | | | | |
| Building in trust | ¥ | ¥ 52,776 ¥ - | | | | | |

Note 10 – Net Assets

NIPPON REIT issues non-par value investment units in accordance with the Investment Trust Act and all of the amounts issued are designated as stated capital. NIPPON REIT maintains at least ¥50,000 thousand as the minimum net assets as required by the Investment Trust Act.

Note 11 – Long-Term Debt

Long-term debt consisted of the following:

| | As of | | |
|--|---------------|-------------------|--|
| | June 30, 2016 | December 31, 2016 | |
| | (Yen in | thousands) | |
| Long-term debt: | | _ | |
| 0.31% unsecured loans due 2016 (Note 2) | ¥ 10,000,000 | ¥ - | |
| 0.25% unsecured loans due 2017 (Notes 2 and 3) | 11,600,000 | 11,600,000 | |
| 0.24% unsecured loans due 2017 (Notes 2 and 3) | 10,200,000 | 10,200,000 | |
| 0.80% unsecured loans due 2018 (Note 2) | 7,000,000 | 7,000,000 | |
| 0.44% unsecured loans due 2018 (Notes 2 and 3) | 2,500,000 | 2,500,000 | |
| 0.22% unsecured loans due 2018 (Note 2 and 3) | 10,800,000 | 10,800,000 | |
| 0.91% unsecured loan due 2019 (Note 2) | 1,070,000 | 1,070,000 | |
| 0.51% unsecured loans due 2019 (Notes 2 and 3) | 9,900,000 | 9,900,000 | |
| 0.54% unsecured loans due 2019 (Notes 2 and 3) | 11,000,000 | 11,000,000 | |
| 0.85% unsecured loans due 2020 (Note 2) | 6,000,000 | 6,000,000 | |
| 0.84% unsecured loan due 2020 (Note 2) | 3,500,000 | 3,500,000 | |
| 0.65% unsecured loans due 2020 (Notes 2 and 3) | 11,000,000 | 11,000,000 | |
| 0.36% unsecured loans due 2021 (Notes 2 and 3) | 8,500,000 | 8,500,000 | |
| 0.38% unsecured loans due 2021 (Notes 2 and 3) | _ | 10,000,000 | |
| 1.24% unsecured loan due 2023 (Note 2) | 500,000 | 500,000 | |
| Total long-term debt | ¥ 103,570,000 | ¥ 103,570,000 | |

Notes:

- 1. The interest rates presented are weighted average interest rates.
- Funds were used for acquisition of investment properties, repayment of outstanding borrowings and payment of any other associated expenses as deemed reasonable.
- 3. As interest rates on these loans are substantively fixed by the interest rate swaps, the interest rates after reflecting the effect of the interest rate swaps are stated.

Note 12 - Leases

The future minimum rental revenues under existing non-cancelable operating leases were as follows:

| | As of | | | | |
|---------------------|---------------------|---------|---|---------------|--|
| | June 30, 2016 Decem | | | mber 31, 2016 | |
| | (Yen in thousands) | | | | |
| Due within one year | ¥ | 416,365 | ¥ | 467,772 | |
| Due after one year | | 244,493 | | 478,601 | |
| Total | ¥ | 660,858 | ¥ | 946,374 | |

Note 13 – Income Taxes

NIPPON REIT is subject to Japanese corporate income taxes on all of its taxable income. However, NIPPON REIT may deduct the amount distributed to its unitholders from its taxable income when certain requirements, including a requirement to distribute in excess of 90% of distributable profit for the fiscal period, are met under the Special Taxation Measure Act of Japan. If NIPPON REIT does not satisfy all of the requirements as specified in the Act, the entire taxable income of NIPPON REIT will be subject to regular corporate income taxes in Japan.

NIPPON REIT has made distribution in excess of 90% of its distributable profit for the six-month periods ended June 30, 2016 and December 31, 2016 in order to be able to deduct such amount from taxable income.

The following table summarizes the significant difference between the statutory tax rate and NIPPON REIT's effective tax rate.

| | For the six-mo | nth periods ended |
|-------------------------------|----------------|-------------------|
| | June 30, 2016 | December 31, 2016 |
| Statutory tax rate | 32.31% | 31.74% |
| Deductible cash distributions | (32.32) | (31.74) |
| Per capita inhabitant taxes | 0.02 | 0.02 |
| Others | 0.01 | 0.00 |
| Effective tax rate | 0.02% | 0.02% |

The significant components of deferred tax assets and liabilities were as follows:

| | | As of | | | |
|---------------------------------|---------------------------------------|----------------------|----------|--|--|
| | June 30, 201 | June 30, 2016 Decemb | | | |
| | (Ye | n in thousand | s) | | |
| Deferred tax assets: | | , | | | |
| Accrued enterprise tax | ¥ | 1 ¥ | 1 | | |
| Allowance for doubtful accounts | | 0 | 0 | | |
| Total deferred tax assets | | 1 | 1 | | |
| Deferred tax liabilities: | | | | | |
| Deferred gains on hedges | 3 | ,438 | 10,964 | | |
| Total deferred tax liabilities | 3 | ,438 | 10,964 | | |
| Net deferred tax liabilities | ¥ (3, | 437) ¥ | (10,962) | | |
| | · · · · · · · · · · · · · · · · · · · | | | | |

Note 14 – Per Unit Information

Information about earnings per unit and net assets per unit was as follows:

| | Jun | e 30, 2016 | Decen | nber 31, 2016 | |
|--|-------|-------------------------------|-------|---------------|--|
| | | (Y | en) | | |
| Earnings per unit: | | | | | |
| Net income per unit | ¥ | 7,515 | ¥ | 7,797 | |
| Weighted average number of units outstanding (units) | | 391,760 | | 391,760 | |
| | As of | | | | |
| | Jun | June 30, 2016 December 31, 20 | | | |
| | | (Y | en) | | |
| Net assets per unit | ¥ | 286,562 | ¥ | 286,883 | |

For the six-month periods ended

Fautha sir mouth naviada andad

The computation of earnings per unit is based on the weighted average number of units outstanding during the period. The computation of net assets per unit is based on the number of units outstanding at each period end as stated on the balance sheets.

Note 15 – Distribution Information

Pursuant to the terms of the distribution policy set forth in Article 35 paragraph (1) item (2) of NIPPON REIT's Articles of Incorporation, the amount of distributions is defined to be in excess of an amount equivalent to 90% of NIPPON REIT's distributable profit as defined in Article 67-15 of the Special Taxation Measure Act of Japan, but not in excess of an amount of profit set forth in the Articles of Incorporation.

Cash distributions are declared by the board of directors after the end of each period. Such distributions are payable to unitholders of record at the end of each period. Information of cash distributions per unit and the board of directors meeting dates when the distributions were proposed and approved were as follows:

| | Fo | For the six-month periods ended | | | |
|----------------------------------|------|---------------------------------|---------|-------------|--|
| | June | June 30, 2016 December 31, 201 | | | |
| | | (Y | en) | | |
| Cash distributions per unit | ¥ | 7,519 | ¥ | 7,800 | |
| Board of directors meeting dates | Aug | gust 16, 2016 | Februar | ry 16, 2017 | |

Retained earnings brought forward after the cash distributions were as follows:

| | | For the six-month periods ende | | | | |
|-----------------------------------|---|--------------------------------|-----|-----------------|--|--|
| | | June 30, 2016 | De | cember 31, 2016 | | |
| | | (Y | en) | | | |
| Unappropriated retained earnings | ¥ | 2,971,047,942 | ¥ | 3,080,273,361 | | |
| Cash distributions declared | | 2,945,643,440 | | 3,055,728,000 | | |
| Retained earnings brought forward | ¥ | 25,404,502 | ¥ | 24,545,361 | | |
| | | | | | | |

Note 16 – Related-Party Transactions

Related-party transactions for the six-month period ended June 30, 2016 were as follows:

| Classification | Name | Location | Capital stock (Yen in thousands) | Occupation | Ratio of voting rights | Nature of transaction | Amount of transaction (Note 3) (Yen in thousands) | Account | Balance at the end of period (Note 3) (Yen in thousands) |
|----------------|-------------------|----------|---|--|------------------------------|---|---|------------------|--|
| | Hisao Ishikawa | = | | Executive Officer of NIPPON REIT and President, Director & CEO of Sojitz REIT Advisors K.K. (Note 1) | = | Payment of asset management fees to Sojitz REIT Advisors K.K. (Note 2) | ¥ 518,623 | Accrued expenses | ¥ 130,600 |

Notes:

- 1. Hisao Ishikawa resigned President, Director & CEO of Sojitz REIT Advisors K.K on June 30, 2016.
- This was executed by Hisao Ishikawa as a representative director of a third party (Sojitz REIT Advisors K.K.) and terms and conditions of related-party transactions are based on those stipulated in NIPPON REIT's Article of Incorporation for asset management fees.
- 3. Consumption taxes are not included in transaction amounts and are included in the balance at the end of the period.

There were no related-party transactions for the six-month period ended December 31, 2016.

Note 17 – Segment Information

Segment Information

Segment information is omitted as NIPPON REIT has one segment, which is property leasing business.

Related Information

Information about Products and Services

Disclosure of this information is omitted as operating revenues to external customers for a single product/service category account for more than 90% of the operating revenues on the statements of income and retained earnings.

Information by Geographic Areas

(1) Operating revenues

Disclosure of this information is omitted as domestic operating revenues account for more than 90% of total operating revenues.

(2) Investment properties

Disclosure of this information is omitted as domestic investment properties account for more than 90% of the book value of the total investment properties.

Information on Major Tenants

Disclosure of this information is omitted as there is no tenant that accounts for 10% or more of the operating revenues recorded in the statements of income and retained earnings.

Independent Auditor's Report

To the Board of Directors of NIPPON REIT Investment Corporation:

We have audited the accompanying financial statements of NIPPON REIT Investment Corporation, which comprise the balance sheets as at December 31, 2016 and June 30, 2016, and the statements of income and retained earnings, statements of changes in net assets and statements of cash flows for each of the six-month periods ended December 31, 2016 and June 30, 2016, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in Japan. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, while the objective of the financial statement audit is not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of NIPPON REIT Investment Corporation as at December 31, 2016 and June 30, 2016, and their financial performance and cash flows for each of the six-month periods ended December 31, 2016 and June 30, 2016 in accordance with accounting principles generally accepted in Japan.

⁽Note 1) The investment ratio is the acquisition value of each acquired asset, divided by the total acquisition value of assets acquired. The ratio is rounded off to the first decimal place.

⁽Note 2) Occupancy rates are as of the end of December 2016.
(Note 3) The PML value for the overall portfolio is based on the May 2015 65-property seismic risk survey portfolio analysis report prepared by Tokio Marine & Nichido Risk Consulting Co., Ltd.

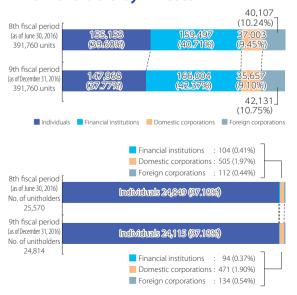

·· Historical Unit Price

The following shows trends for trading prices (closing prices) and volume for NIPPON REIT, which is traded on the Tokyo Stock Exchange, for the period from April 24, 2014 to December 30, 2016 (the final trading day of the ninth fiscal period).

Unitholders

▶ Procedures for Notification of Address or Other Changes

Investors should inform their securities company of any changes to pertinent personal information, including address, name, and official seal for carrying out banking transactions.

▶ Cash Distributions

Unitholders can receive cash distributions by bringing their cash distribution receipt to the nearest Japan Post Bank or post office (banking agent). To receive the cash distributions after the receipt period, designate the method for receipt on the back of the cash distribution receipt and mail it to the Stock Transfer Agency Services, Mitsubishi UFJ Trust and Banking Corporation or go to the head office or a branch office. (Please refer to the investor memo above for contact information.)

In addition, for future cash distributions, unitholders should contact their securities company to specify a bank account for cash distribution deposits, or for desired procedures, including filing to opt for separate taxation at the source.

Note that NIPPON REIT is not obliged to pay any cash distributions unclaimed for a period of three years after the first day of payment.

Unitholders should make arrangements to receive their cash distributions as soon as possible.

▶ Statement of Cash Distribution

The statement of cash distribution we send for cash distribution payments also serves as Notice of Dividend Payment, in accordance with provisions under the Special Taxation Measure Act of Japan. This document can be an attachment to tax forms when filing income taxes. Note that the statement of cash distribution is enclosed and sent along with the cash distribution receipt, which unitholders exchange for dividends. Unitholders who file income taxes should carefully store this document away to prevent loss. However, unitholders who opt for allocation in proportion to the number of investment units should contact their securities company for details.

** "My Number System" for Investment Equity

The number in the notification from the municipality is required for investment equity tax procedures. For this reason, investors must notify their securities company of their individual number.

As stipulated by law, we print the investor's individual number on payment records **Use of "My Number** and submit them to the tax office.
