Notice Concerning Transfer of Real Estate Trust Beneficiary Interests in Japan (Tsukiji Front)

NIPPON REIT Investment Corporation (“NIPPON REIT”) announces that SBI REIT Advisors Co., Ltd. (“SRA”), which is entrusted to manage the assets of NIPPON REIT, made decision today on the transfer of assets (the “Transfer”) as follows.

1. Overview of the Transfer

Prop. # (Note 1)	Real Estate in Trust (Property Name)	Location	Purchaser	Scheduled Contract Date	Scheduled Transfer Date	Broker age	Scheduled Transfer Price (¥ mm) (Note 2)	Assumed book value (Note 3)	Difference between scheduled transfer price and assumed book value (¥ mm) (Note 4)
A-71	Tsukiji Front	Chuo-ku, Tokyo	Not disclosed (Note 5)	May 29, 2026	July 31, 2026	Yes	1,250	853	396

Note 1: "Prop. #." is the number of each property in accordance with each asset type designated by NIPPON REIT. Capital letter of "A" represents office, "B" represents residence and "C" represents other properties used for other purposes. The same shall apply hereinafter.

Note 2: "Scheduled Transfer Price" refers to the price of Trust beneficiary interests in real estate on a sale agreement of Trust beneficiary interests in real estate, which does not include consumption tax, local consumption tax, various expenses required for the Transfer.

Note 3: "Assumed book value" is the assumed book value as of the transfer date, which SRA calculated based on the book value as of the end of the 27th period (ended December 2025), capital expenditure and depreciation cost that are expected until transfer date. It is rounded down to the nearest million yen.

Note 4: "Difference between Transfer Price and Assumed Book Value" is the difference between the scheduled transfer price and the assumed book value. The amount may not be the same as the actual gain (loss) on transfer.

Note 5: Details of the "Purchaser" are not disclosed because consent to the disclosure of its name has not been obtained from the Purchaser; however, the Purchaser is a domestic company. The Purchaser does not fall under the category of interested persons, etc. as defined in Article 201 of the Act on Investment Trusts and Investment Corporations (Act No. 198 of 1951, as amended) and Article 123 of the Order for Enforcement of the Act on Investment Trusts and Investment Corporations (Cabinet Order No. 480 of 2000, as amended) (the "Interested Persons, etc."), nor does it fall under any interested party as stipulated in the "Rules on Transactions with Interested Parties," an internal regulation of SRA.

2. Reason for the Transfer

Aiming to improve the quality of its portfolio, NIPPON REIT is pushing forward with the replacement of assets as part of its growth strategy. In concrete terms, NIPPON REIT has been proceeding in stages to sell properties that have limited growth potential, mainly due to their age, and instead acquire fairly new buildings that are relatively inflation-resistant and have promising prospects for growth. Fairly new properties make it possible to increase cash on hand because it tends to be possible to record large amounts of depreciation whereas capital expenditures are comparatively reduced. By appropriating free cash flow generated in this manner for strategic added value renovations of existing properties, NIPPON REIT plans to accelerate internal growth and improve the NOI of its entire portfolio.

As a tiering project, SRA annually evaluates properties in light of profitability, liquidity and property characteristics and categorizes all properties into three tiers (Tier 1 to Tier 3). This is used to formulate and implement efficient capital expenditure plans and to consider the sale of properties with an eye on the trends in the real estate leasing market.

With respect to the property scheduled to be transferred, NIPPON REIT conducted a comprehensive review of its medium- to long-term internal growth potential, taking into account that the building is over 30 years old and an increase in capital expenditures is expected in the future, that its relatively small standard floor area of approximately 25 tsubo limits its competitiveness in terms of specifications, and that the office portion has been almost entirely converted into furnished offices, with the exception for one floor.

As a result, NIPPON REIT determined that terminating the management of the property at this time and realizing unrealized gains through the transfer would contribute to the maximization of unitholder value.

In addition, NIPPON REIT had initially assumed that, for the fiscal period ending December 31, 2026, cash distributions would be made based on the assumption that unappropriated retained earnings after adding the reversal of reserve for the reduction entry of 369 million yen would be distributed. However, as a gain on sales of real estate properties is expected to be recorded in the same fiscal period, NIPPON REIT plans to use such gain as a source of funds for distributions and to reduce the amount of the reversal of reserve for the reduction entry from the initially assumed amount.

3. Summary of the Asset to Be Transferred

(i). Overview of the Asset

Type of specified asset		Trust beneficiary interests in real estate			
Scheduled Transfer date		July 31, 2026			
Trustee		Mitsubishi UFJ Trust and Banking Corporation			
Trust establishment date		April 26, 2019			
Trust expiration date		November 30, 2030			
Location (Indication of residential address)		2-2-7 Tsukiji, Chuo-ku, Tokyo			
Land	Parcel number	2-204-29 Tsukiji, Chuo-ku, Tokyo and another parcel			
	Building coverage ratio / Floor area ratio	100% (Note 1) / 594% (Note 2)			
	Use district	Commercial Area			
	Site area	130.10 m ²			
	Type of ownership	Ownership			
Building	Construction completion	August, 1991			
	Structure / Floors	Steel-framed reinforced concrete structure, flat roof; B1 / 9F			
	Use	Office, retail stores			
	Total floor space	748.61 m ²			
	Type of ownership	Sectional Ownership (Note 3)			
Master lease company		NIPPON REIT			
Type of master lease		Pass-through			
Appraisal value		1,110 million yen (as of December 31, 2025)			
Real estate appraiser		Japan Real Estate Institute			
PML		5.7%			
Collateral after acquisition		Not applicable			
Status of leasing					
	Total leasable floor space	689.53 m ²			
	Total leased floor space	689.53 m ²			
	Occupancy rate	100.0% (As of the end of Jan.2026)	100.0% (As of the end of Feb.2026)	100.0% (As of the end of Mar.2026)	100.0% (As of the end of Apr.2026)
	Number of tenants	7			
	Total rent income (annual)	51 million yen			
	Deposits, etc.	23 million yen			
Special notations		Not applicable			

Note 1: The building coverage ratio is essentially 80%, but it is increased to 100% due to the relaxation for fire-resistant buildings located within a fire prevention district.

Note 2: The floor area ratio is essentially 600%, but due to restrictions based on the width of the front road and the relaxation of restrictions based on the distance to a designated road, it is 594%.

Note 3: NIPPON REIT owns all of the sectional ownership rights in this building.

(ii). Summary of the Appraisal Report

Property name	Tsukiji Front
Appraisal value	1,110 million yen
Appraiser	Japan Real Estate Institute
Date of value	December 31, 2025

(Thousand yen)

	Details	Outline
Indicated value by income approach	1,110,000	The capitalized value by the direct capitalization method and the capitalized value by DCF method are both judged to have the same normative value, and the capitalized value by the capitalized capitalization method is estimated as shown on the left by linking both prices.
Direct capitalization method	1,130,000	
Gross operating revenue	53,905	
Potential gross income	56,399	Record based on the assessed unit price of rent, common area charges and parking income etc. which can be received over a mid-and long-term.
Total of vacancy losses, etc.	2,494	Recorded after assessing medium-to long-term stable occupancy rate levels based on the occupancy status, supply and demand trends of similar properties with substitution competition and other relationships in similar areas within the primary market area, and the past occupancy status and future trends related to the subject property.
Operating expenses	11,412	
Building management fees	2,400	Recorded in consideration of the individuality of the target property, by reference to the building management fees of similar properties and the actual amount of the past years.
Utilities	4,300	Recorded in consideration of the occupancy rate etc. of the leasing space, by reference to the actual amount of the past years.
Repairs and maintenance costs	463	Recorded in consideration of cost levels of similar properties and average annual amount of repair and renewal expenses in the Engineering Report, with reference to actual amounts for prior years.
Property management fees	744	Recorded in consideration of compensation rates for similar properties and the individuality of the subject property, with reference to compensation rates based on contractual terms.
Leasing cost	435	The annual average amount assessed based on the tenant's expected occupancy period is recorded.
Taxes	3,037	Calculated based on documents related to public taxes and public dues, taking into account burden adjustment measures and age-based depreciation adjustment rates.
Insurance	33	Recorded considering insurance premiums based on insurance contracts and premium rates for buildings similar to the subject building
Others	0	N/A
Net operating income	42,493	
Investment return on the lump-sum deposit	263	Appraised the investment income of the lump-sum payment by multiplying the amount obtained by multiplying the occupancy rate by the investment yield, after assessing the number of months of stable security deposits over the medium to long term. The investment yield that is considered to be appropriate is appraised at 1.0%, taking into account the interest rate levels of both investment and financing, etc.
Capital expenditure	1,120	Assessed in consideration of a level of capital expenditure by similar properties, age of the building and an annual average of repairs, maintenance and renewal costs in the engineering report, based on an assumption that expected expenditure is accumulated every term on average.
Net income	41,636	
Capitalization rate	3.7%	Assessment taking into account uncertainty in the future and transaction yields related to similar properties, as well as adding or subtracting spreads attributable to the location, building conditions and other conditions of the subject property from the benchmark yields for each district.
Discount cash flow method	1,090,000	
Discount rate	3.5%	Assessed in consideration of the individuality of the target property comprehensively, by reference to invest yields of similar properties.

	Terminal rate	3.8%	Assessed in consideration of future trends of investment yields, risks in the target property as an investment target and general forecasts for economic growth and trends in property prices and rents, etc. comprehensively, by reference to investment yields of similar properties.
	Indicated value based on cost approach	717,000	
	Proportion of land	91.4%	
	Proportion of building	8.6%	
	Other matters to which the appraiser paid attention in appraisal	None	

4. Explanation of matters stated in “3. Summary of the Asset to Be Transferred”

- “Location (indication of residential address)” is the indication of residential address of the Property. In addition, if there is no indication of residential address, the building location in the registry (if several, then one of the locations) is stated.
- “Parcel number,” lot number in the registry (if several, then one of the parcels) is stated.
- “Building coverage ratio” and “Floor area ratio” of land are, in principle, the figures provided in accordance with related laws and regulations, such as the Building Standards Act (Act No. 201 of 1950, as amended) and the City Planning Act (Act No. 100 of 1968, as amended.) (the “City Planning Act”) and rounded to the nearest whole number. Depending on the Properties, there are cases where “Building coverage ratio” and “Floor area ratio” indicated in the Act are subject to certain relaxation measures or restriction measures. In addition, where there are several floor area ratios that apply to a site, the floor area ratio is stated by converting to one that applies to the entire site.
- “Use district” of land is the type of use district listed in Article 8, Paragraph 1, Item 1 of the City Planning Act.
- “Site area” of land is based on that stated in the registry and may differ from the present state.
- “Type of ownership” of land is the type of rights of the real estate held by the trustee of the Property.
- “Construction completion” of building is the date of new construction in the registry. In addition, the date of extension, reconstruction, etc. are also stated, if any.
- “Structure / floors” of building is based on that stated in the registry.
- “Use” of building is the major type of building in the registry.
- “Total floor space” of building is based on that stated in the registry, and annex buildings are separately stated, if any.
- “Type of ownership” of building is the type of rights of the real estate held by the trustee of the Property.
- “Master lease company” is the company that has concluded or the company that is scheduled to conclude a master lease agreement that is valid as of today for the Property.
- “Type of master lease” is the main type of master lease agreement concluded or scheduled to be concluded as of today, where “Pass-through” is a master lease agreement in which the master lease company shall pay the same amount of rent as the rent payable by end tenants to the master lease company and “Rent guaranteed” is a master lease agreement in which the master lease company shall pay a fixed amount of rent.
- “Appraisal value” is the appraisal value stated in the appraisal report prepared by Japan Real Estate Institute. The value is rounded down to the nearest million yen. The appraisal value does not guarantee or promise the possibility of current or future transaction at the appraisal value. Furthermore, there is no special interest among the Appraiser, NIPPON REIT and SRA.
- “PML” indicates the Probable Maximum Loss (PML) value calculated in the earthquake risk analysis conducted by Tokio Marine dR Co., Ltd. This analysis was commissioned by NIPPON REIT when acquiring assets and included real estate condition surveys (land and building surveys), environmental surveys, legal surveys, economic surveys (tenant, market and income surveys), and real estate appraisal values. “Probable Maximum Loss” refers to the expected maximum loss ratio due to an earthquake. In this context, it represents the extent of damage anticipated during the assumed service life (50 years, the typical useful life of a building) from the largest expected earthquake (a major earthquake with a recurrence interval of 475 years, meaning a 10% probability of occurring within 50 years). This ratio is expressed as a percentage (%) of the estimated restoration cost relative to the replacement cost.
- “Collateral after acquisition” is whether or not collateral is scheduled to be established after acquisition of the real estate trust beneficiary right by each party.
- “Status of leasing” is based on the figures and information provided by the previous owner or the trust beneficiary, etc. regarding the content, etc. of the lease agreement, etc. that is valid as of the end of April 2026, unless otherwise stated. Lease contracts cancelled due to non-payment of rent, etc. are also

- accounted for as effective lease contracts when collection of rent, etc. by guarantors, etc. is expected.
- “Total leasable floor space” is the floor space regarded by NIPPON REIT as being available for leasing based on the lease agreement or building drawing, etc. of the building of the property (Note 1).
 - “Total leased floor space” is the sum total of the leased floor space indicated in each lease contract or each provisional lease contract for the property as of the end of April 2026 (Note 1). However, in cases where a pass-through type of master lease agreement is scheduled to be concluded, the sum total of the leased floor space of end tenants indicated in each sublease contract or each provisional sublease contract for the property as of the end of April 2026. Furthermore, because there are cases where leased floor space indicated in lease contracts, etc. includes the portion not included in total floor space, there are cases where total leased floor space may exceed total floor space.
 - “Occupancy rate” is the ratio of the leased floor space to the leasable floor space for the property at each date stated and rounded to one decimal place.
 - “Number of tenants” is the sum total of the number of tenants in the lease agreement of each property as of the end of April 2026 (Note 1). Furthermore, in cases where a pass-through type of master lease agreement is scheduled to be concluded for the concerned asset, the total number of end tenants (Note 1) is stated. However, even in the case of a pass-through type of master lease agreement, in cases where the sub lessee subleasing the entire property from the master lease company has been entrusted with property management and shall pay fixed rent to the master lease company, the total number of tenants is stated as one.
 - “Total rent income (annual)” is the annual rent, or the amount annualized by multiplying the monthly rent by 12, for the building indicated in each lease contract or each provisional lease contract for the property as of the end of April 2026 (Note 2) and rounded down to the nearest million yen. However, in cases where a pass-through type master lease agreement is scheduled to be concluded between the master lease company and the lessor, etc. in which, in principle, the rent, etc. from end tenants is received as is, the annual rent, or the amount annualized by multiplying the monthly rent by 12, indicated in each sublease contract or each provisional sublease contract with end tenants for the property as of the end of April 2026 (Note 3), and rounded down to the nearest million yen is stated.
 - “Deposits, etc.” is the sum total amount of tenant leasehold and security deposits required based on each lease agreement as of the end of April 2026 (limited to the tenant leasehold and security deposits based on the lease agreement for the leasing space occupied as of the same date) and rounded down to the nearest million yen. In cases where a master lease agreement is scheduled to be concluded for the concerned asset, the sum total amount of tenant leasehold and security deposits required based on the lease agreement concluded with end tenants, and rounded down to the nearest million yen is stated.
 - “Special notations” indicate, in general, items believed to be important in terms of the respective relationship of rights and use of each asset as well as items believed to be important in consideration of their impact on the appraisal value, profitability, and possibility of disposal of such asset based on the information as of the date of this press release.

Note 1: Excluding warehouse, signboard, parking lot, etc.

Note 2: For the real estate that is, or is scheduled to be the real estate or the trust property under several lease agreements, the sum total amount thereof. In addition, common area maintenance charges are included, but storage shed, signboard, parking lot, etc. usage fees are not included, and free-rent is not taken into account. Consumption tax is not included.

Note 3: For the real estate that is, or is scheduled to be the real estate or the trust property under several sublease agreements, the sum total amount thereof. In addition, common area maintenance charges are included, but storage shed, signboard, parking lot, etc. usage fees are not included, and free-rent is not taken into account. Consumption tax is not included.

5. Overview of the Purchaser

The purchaser of the property is a domestic company. There are no capital, personnel, or business relationships to be stated between NIPPON REIT or SRA and the purchaser. The purchaser is not a related party of NIPPON REIT or SRA. In addition, the purchaser does not fall under the Interested Persons, etc., nor does it fall under any interested party as stipulated in the “Rules on Transactions with Interested Parties,” an internal regulation of SRA, as of today.

6. Overview of Brokerage

The broker of the property is a domestic company. There are no capital, personnel, or business relationships to be stated between NIPPON REIT or SRA and the broker. The broker does not fall under the category of a related party of NIPPON REIT or SRA. In addition, the broker does not fall under the Interested Persons, etc., nor does it fall under any interested party as stipulated in the “Rules on Transactions with Interested Parties,” an internal regulation of SRA, as of today.

7. Forward Commitment

This transfer constitutes a forward commitment, etc.

In the trust beneficiary interest transfer agreement, if NIPPON REIT or the purchaser commits a material breach of its contractual obligations, the other party may terminate the agreement upon notice. In the event of such termination, the party responsible for the cause of termination shall pay to the other party a penalty equivalent to 20% of the purchase price (scheduled transfer price) of the beneficiary interest.

This transfer constitutes a disposition of an asset and does not involve any financing by NIPPON REIT; therefore, it is considered unlikely to have a material adverse effect on the financial condition of NIPPON REIT.

8. Form of Payment, etc.

The settlement for this transfer is scheduled to be completed on the planned transfer date through a lump-sum payment of the transfer price by the purchaser. The proceeds from this transfer are intended to be allocated to future initiatives aimed at enhancing unitholder value.

9. Future Outlook

The impact of the Transfer on the management status for the fiscal period ending December 31, 2026 (from July 1, 2026 to December 31, 2026), announced in the “Summary of Financial Results for the Fiscal Period Ended December 31, 2025 (REIT)” dated February 18, 2026, is expected to be minimal, and no revisions have been made to the previously announced forecast.

As stated in “Section 2, Reason for the Transfer,” NIPPON REIT had initially assumed that, for the fiscal period ending December 31, 2026, cash distributions would be made based on the assumption that unappropriated retained earnings after adding the reversal of reserve for the reduction entry of 369 million yen would be distributed. However, as a gain on sales of real estate properties is expected to be recorded in the same fiscal period, NIPPON REIT plans to use such gain as a source of funds for distributions and to reduce the amount of the reversal of reserve for the reduction entry from the initially assumed amount.

Accordingly, there is currently no change to the forecasted distribution per unit (2,250 Yen) announced on February 18, 2026.

Others subtotal 9 properties				38,646	14.1
Total 106 properties				273,428	100.0

(Note 1) Acquisition price is truncated to the nearest million and the ratio is rounded to the second decimal place.

(Note 2) 1F to 7F is named "FORECAST Ichigaya" as an office property, and 8F to 9F is named "Eponoqu Ichigaya" as a residential property. "FORECAST Ichigaya" includes the residential area thereof.

(Note 3) The ownership form of this property is real estate, while the ownership forms of all other properties are beneficial interests in real estate trusts.

(Note 4) Part of the building (1F to 4F) is named "S&S Building" as an office/retail store. However, "Primegate Iidabashi" includes the office area thereof.

(Note 5) This property includes a separate building, which is structurally independent from the main building, and these two buildings are counted as one property.
